A GRAND AMBITION FOR THE RELIABLE GROUP

Confix Group was founded with a very Grand Ambition, which is to form a very strong foundation and carry Bangladesh's metal processing industry into new heights. At the very root of any manufacturing industry, we can find different forms of matter like Wood, Metal, Glass and other various types.

Efficiently and safely processing such matter into desired shapes and form is of very high importance and poses significant challenges. Thus, Confix Group aims to streamline these challenges and help people achieve their dreams, whether it is making Furniture, Doors, Interior Solutions, different Metal-based or Glass-based Work. Unlike other companies in country which acts as simple traders providing machinery, Confix Group is more than just a simple machinery supplier. Confix Group is the only organization in Bangladesh which provide complete solutions and proper after sales services.

CONFIX GROUP MAIN FIGURES

THE MOST ADVANCED SKILLS & KNOWLEDGE IN BANGLADESH

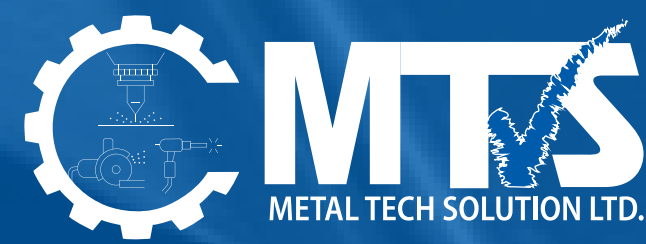

- **The Technological** leader in processing Wood, Metal, Glass and other varieties. Confix Group's companies are the most reliable partners of every major manufacturing industries in Bangladesh, covering a wide variety of product sectors: from furniture to interiors, from automotive to light engineering, from boats to a variety of matter processing.

OUR CONCERNS

WOOD TECH SOLUTION

METAL TECH SOLUTION

GLASS TECH SOLUTION

INTERNATIONAL COLLABORATION & GOODWILL

- **Confix Group** not only owns the number 1 companies in the Bangladesh's Wood, Metal and Glass working industries, but also represents the world's leading brands in the matter processing industry by being their sole distributor. From **Wood-Mizer's** best sawing technology in the world, **SCM's** world leading wood processing technology to **Cefla's** leading finishing and coating solutions, and many other world leading brands, the group has it all. It is the single house which encompasses all forms of solutions for Bangladesh's matter processing industry.

OUR INDUSTRIAL PARTNERS

“ Beyond its role as a market leader, Confix Group has made significant contributions to workforce development and global career opportunities. Through its extensive network, professional training, and established goodwill, the group has enabled skilled machine operators and engineers to secure jobs internationally. By collaborating with leading global organizations and universities, Confix Group remains committed to introducing cutting-edge technology, modern work methods, and enhanced recognition for Bangladesh’s workforce, paving the way for better careers and a brighter future.

As a solid, family-founded company with a long-term vision, Confix Group places a strong emphasis on people, professional development, and quality of life. It is committed to fostering innovation that aligns with sustainable development, all while caring for the communities where it operates—both in its original home and in the regions, it has expanded to over the years. By investing in talent and prioritizing sustainability, Confix Group strives to create a lasting positive impact on industries and society alike.

OUR VISION

OUR MISSION

OUR VISION

Bringing cutting-edge technology and deep technical expertise to the wood, metal, and glass-working industries, aiming to set international standards while contributing to the growth of Bangladesh's economy.

OUR MISSION

Providing the absolute best quality Consultancy, Machinery, Project planning, Training, and After-Sales Service in the fastest time, to help our customers grow.

The **CEO and Director** of Confix Group photographed in LIGNA (International Trade FAIR, Germany), which was also featured in the cover photo of Wood & Panel Europe Magazine (the biggest magazine in the world for wood and panel technology- <https://www.woodandpanel.com/woodnews/article/ligna-2025-anniversary-edition-achieves-outstanding-booking-status/>)

OUR CORE VALUES

VALUES 01

Equal rights for all employees without any discrimination

VALUES 02

Responsibility, empathy and commitment towards all our stakeholders, environment and society

VALUES 03

Ensure honesty, integrity and ethics regarding all our practices

VALUES 04

Happy, competent, safe and efficient work environment
Highest quality service & accountability

FOUNDER'S JOURNEY

The vision for Confix Group was born when its founder Md. Naimul Hossain Khan observed the challenges faced by stakeholders in Bangladesh's material processing industry. Recognizing the need for a guiding hand to bring the industry into the modern era, the founder dedicated himself to acquiring extensive knowledge and training to foster growth, innovation, and adherence to safety and health standards. The technology landscape within the material processing industry is as vast as an ocean, with countless options and possibilities.

Mr. Naimul completed his B.Sc. And M.Sc. in Physics from Aligarh Muslim University, India. He also achieved two more master's degrees: Master of Business Administration (MBA) in Marketing from Carnegie Mellon University (Tepper School of Business), USA (Under Management Scholarship from Robert Bosch GmbH) and Master of Science in Wood Technology from Rosenheim University of Applied Sciences. His academics has helped him become a master of the science of matter processing.

He started his career in 1996 at Robert Bosch GmbH (A Fortune 500 company with a turnover of EURO 92 billion and 4,29,416 employees worldwide) where he became the head of Robert Bosch Bangladesh. After leaving Bosch he fulfilled his dream of starting his own company Wood Tech Solution, and later on founded Confix Tech PLC, NHK Tech Drive, Metal Tech Solution (MTS), Glass Tech Solution (GTS), together which formed Confix Group. Confix Group now stands tall as the number one matter processing organization in Bangladesh.

Over the past 20 years, he has played a pivotal role in the development of all major furniture, door, and board manufacturing brands in Bangladesh through his expert supervision and consultation. Under his guidance, manufacturing projects worth over Tk. 1,800 Crore have been successfully completed across the country. Beyond Bangladesh, his expertise has driven the successful completion of furniture, door, and board manufacturing projects valued at approximately US\$293 million in multiple countries worldwide. These include Vietnam, Indonesia, India, Pakistan, Sri Lanka, Nepal, the Philippines, UAE, Qatar, Jordan, Kuwait, Iran, Saudi Arabia, Oman, Turkey, Kenya, Nigeria, Egypt, Algeria, South Africa, Tanzania, Morocco, Malawi, Tunisia, Senegal, Poland, Romania, Russia, Ukraine, Sweden, Bulgaria, Mexico, Brazil, Argentina, and Canada.

Mr. Naimul's international renown and recognition in this industry has made him the highest paid wood working consultant in the world. Due to his immense contribution in the matter processing industry in Bangladesh, the government of Bangladesh has appointed him as the Chief Consultant of Bangladesh Forest Industries Development Corporation (BFIDC), under the ministry of Environment, Forest & Climate Change.

Following in Mr. Naimul's footsteps is his son Rafsan Hossain Khan, who is the future torch bearer of his legacy. Mr. Rafsan plans to lead Confix group into the new generation. As a software engineer and an avid technology and automation aficionado, Mr. Rafsan brings new ingenuity, poise and ideas into the foray. While the world changes and evolves, so does Confix Group, and Mr. Rafsan's leadership makes sure that Confix Group's legacy of passion and innovation remains ever-lit.

THE LARGEST TECHNOLOGY CENTER IN SOUTHEAST ASIA

In 2019, Confix Group completed Bangladesh's only center for wood-working and metalworking technology in Keraniganj, Dhaka. Standing at 38000 square feet, this center remains the biggest technology center in Southeast Asia, and one of the largest in the world.

Customers from all over Bangladesh actively use this center for live practical demonstrations of all kinds of woodworking machineries. They experience firsthand the fascinating process of creating state of the art furniture and door manufacturing techniques. They also receive competent training in installing, operating and servicing the machineries.

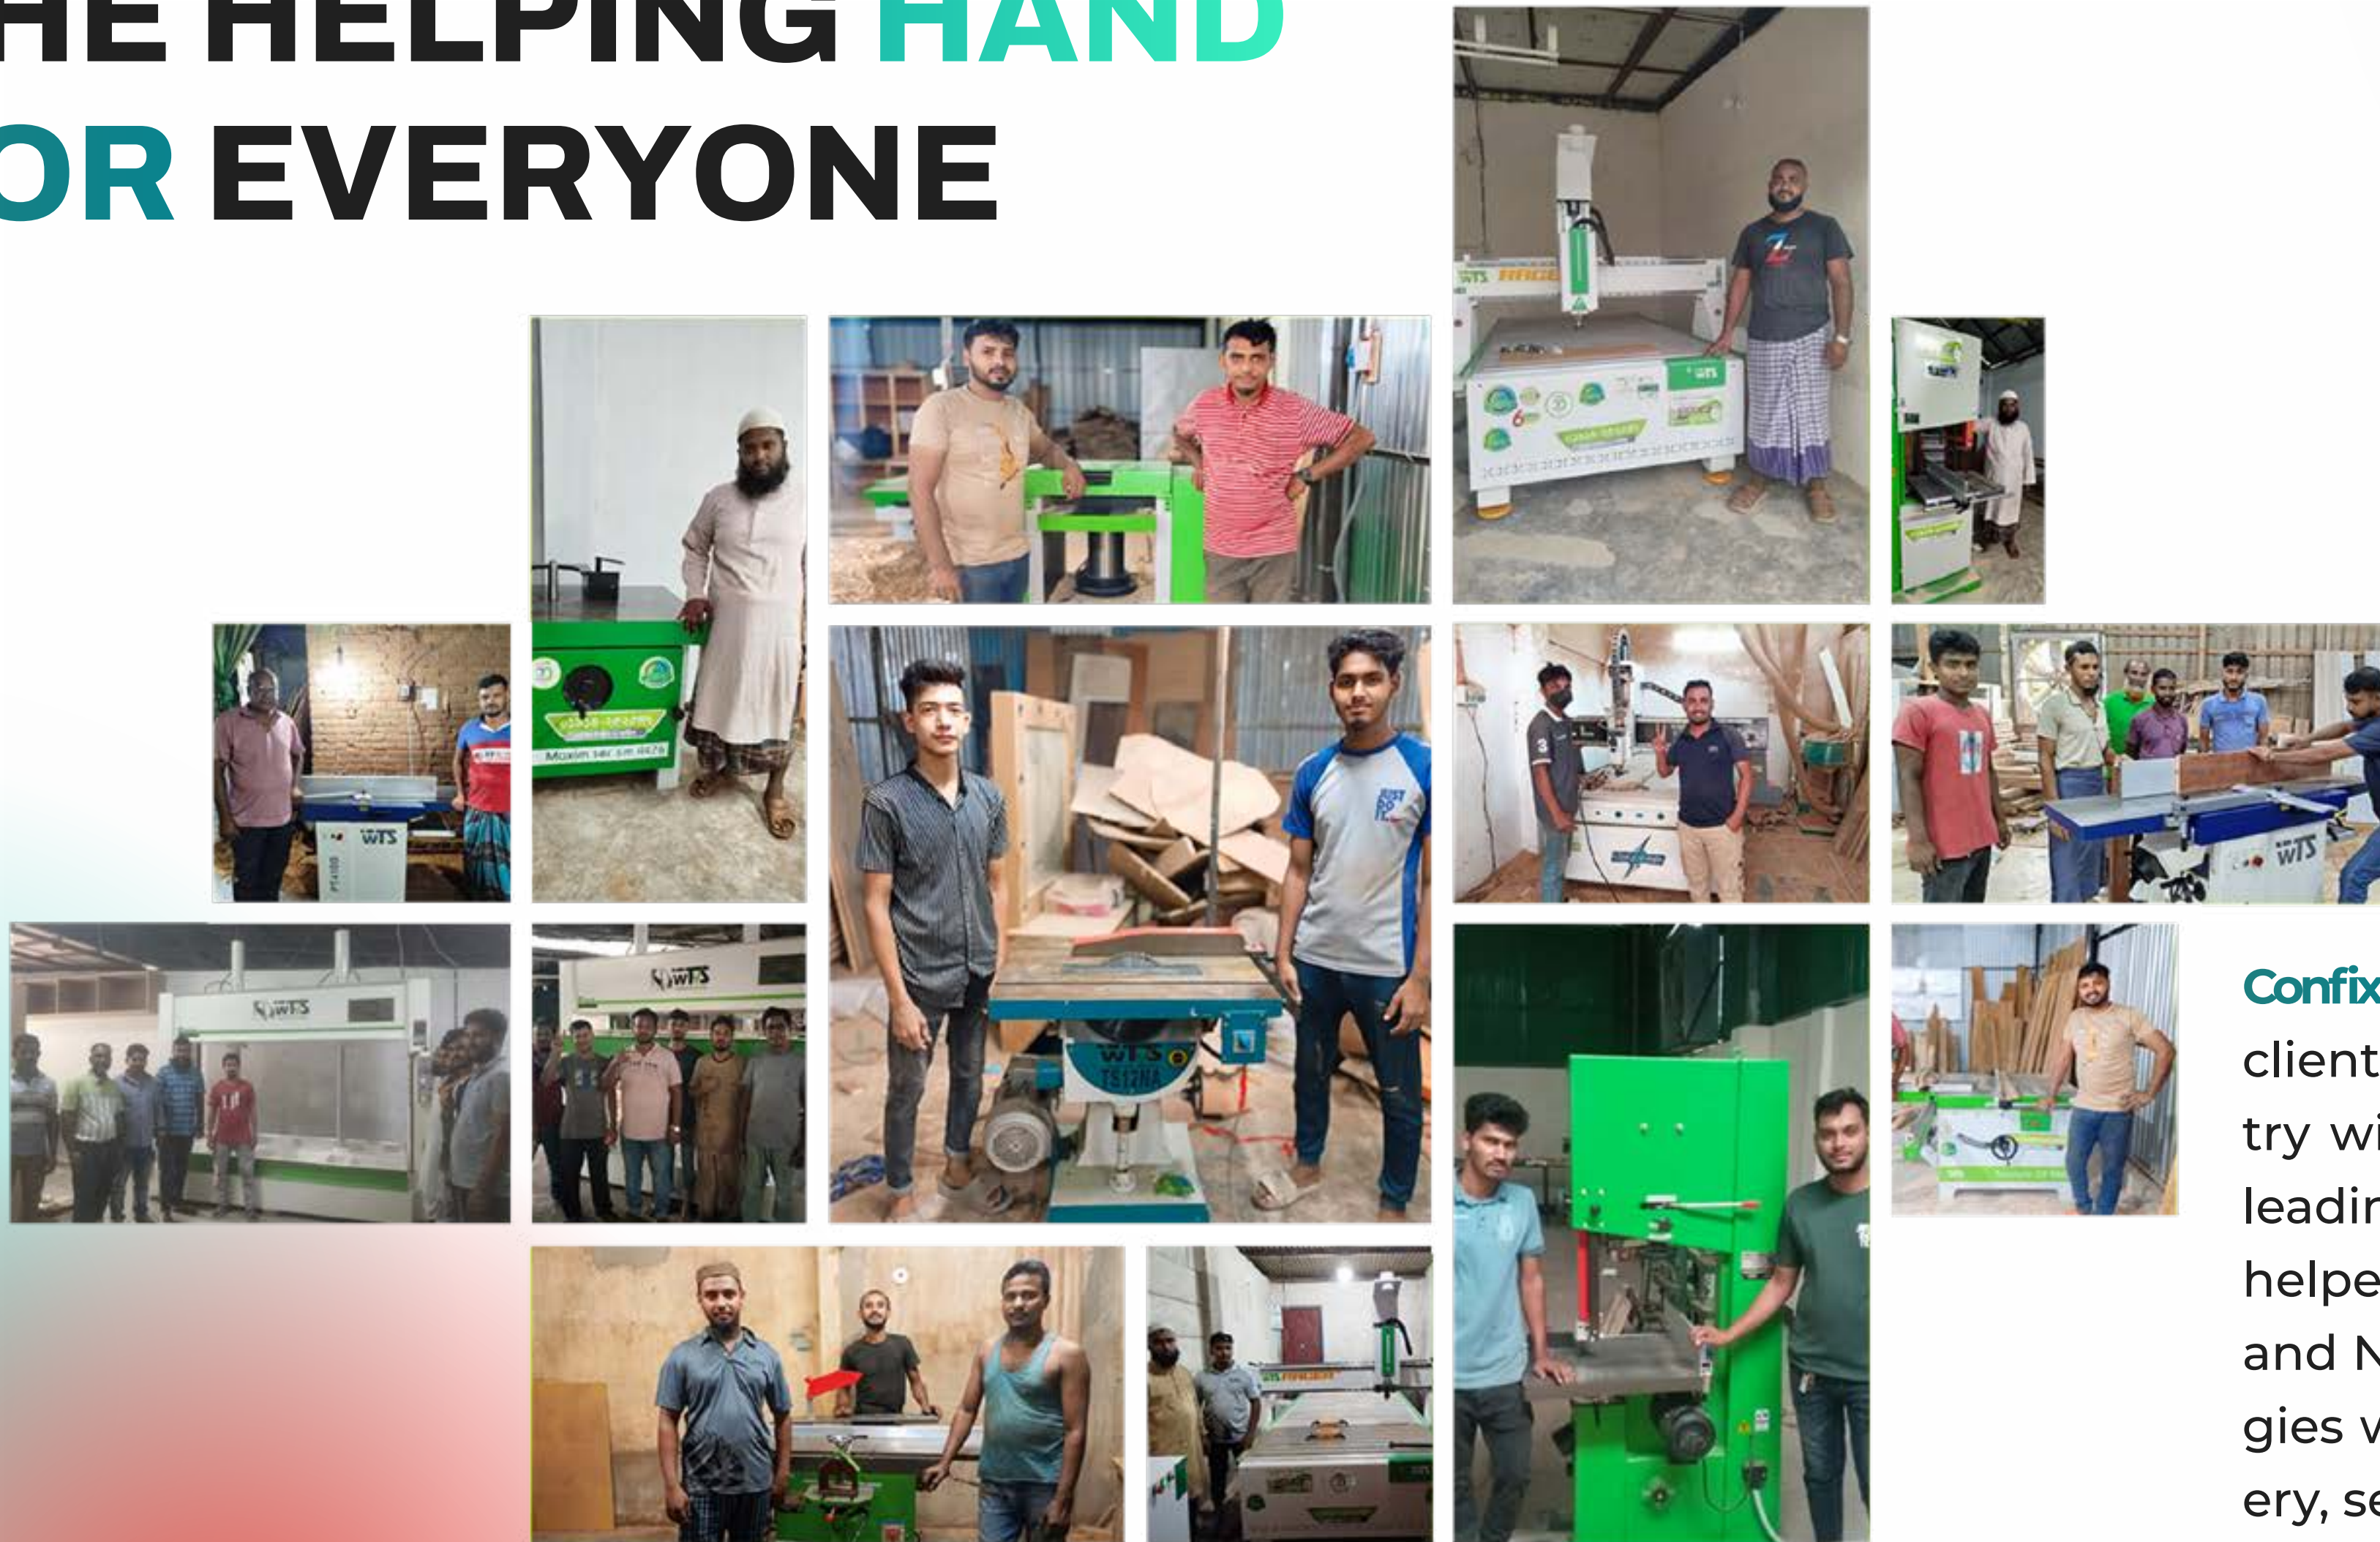

AT THE SERVICE OF LEADING COMPANIES

IN A WIDE RANGE OF SECTORS

Confix Group has pioneered in providing solutions to a wide variety of manufacturing sectors in Bangladesh. The group is steadfast, dedicated and ambitious. As Bangladesh grows and develops, the group is always ready in lending its hand to pull all levels of Industry into a new age. As technology evolves, so does Confix Group, always innovating and sharing its knowledge and experience. Even internationally the group is a renowned name, with solution, support and consultancy provided to over 45 countries in all continents. With over 2 decades of experience, it remains the most reliable group for industrial machinery and solutions.

THE HELPING HAND FOR EVERYONE

Confix Group boasts Bangladesh's largest clientele in the matter processing industry with 15000+ Clients. Along with the leading brands, Confix Group has also helped entrepreneurs, small business and NGOs in adapting to new technologies with their superior quality machinery, services, training and solutions.

CONSULTANCY EMPOWERMENT THROUGH KNOWLEDGE

With over 20 Years of experience and knowledge, Confix Group is the only premium brand dedicated to sharing, improving and imparting solutions in Bangladesh's wood, metal and glass processing industries.

Confix group is not just a machinery sales brand, but an overall solution-based Brand. It prides itself in providing complete and comprehensive solutions to all challenges faced by clients. From researching and planning to providing machinery and servicing, Confix group remains all the way through a client's goal of setting up their own manufacturing systems.

We find solutions for any and all levels of industry, from small startups to the industry leaders of Bangladesh. Through our Consultancy, Machinery and Full-Fledged support people's dreams have true, working conditions have been modernized and most importantly smiles have been created.

Confix Group excels in completing specialized projects, ensuring every meticulous detail and requirement. This is exactly why for over 20 years many major brands have trusted us to provide them with consultancy and complete projects.

Some of the major projects include state of the art 2,78,000 sq. FT high tech production line for Bangladesh Machine Tools Factory Ltd (owned by the Bangladesh Army), plyboard and door manufacturing factory for Akij Board Mills Ltd, several projects (plyboard and flush door production, finishing line development project, Solid wood Design technique development project) for Hatil Complex Ltd throughout the years, 100% export-oriented state of the art 4,15,00 sq. FT high tech production line for Executive Wood Works Ltd, etc.

Confix Group has successfully completed projects worth over 150 million USD (1,800+ crore BDT) in Bangladesh and over 290 million USD internationally. When it comes to developing factories with modern technology and ensuring proper training and after-sales service to maintain full operational efficiency, Confix Group stands as the only organization in Bangladesh with the necessary expertise and knowledge.

TOWARDS THE FUTURE

THE MOST TECHNICAL PROJECT FOR THE MOST PROFICIENT TEAM

Confix Group's very first Concern, Wood Tech Solution (WTS), has been appointed by the Bangladesh Forest Industries Development Corporation (BFIDC), under the Ministry of Environment, Forest & Climate Change to complete a massive technical project.

Spearheading this ambitious initiative as the Chief Consultant, Mr. Naimul Hossain Khan, CEO of Confix Group, envisions setting new benchmarks in the country's woodworking sector by establishing exemplary industry standards.

The project aims to revolutionize the industry by establishing seven state-of-the-art factories—five industrial units and two processing units. It is expected to generate significant employment opportunities, contribute to the development of remote rural areas, and reduce dependency on imports, ultimately saving foreign currency.

Upon completion, the project will ensure the production of top-quality furniture crafted from treated, conditioned, and highly durable wood. With an estimated value exceeding 600 Crore BDT, the project is set to be completed within four years.

MASTERY OVER WOOD

—

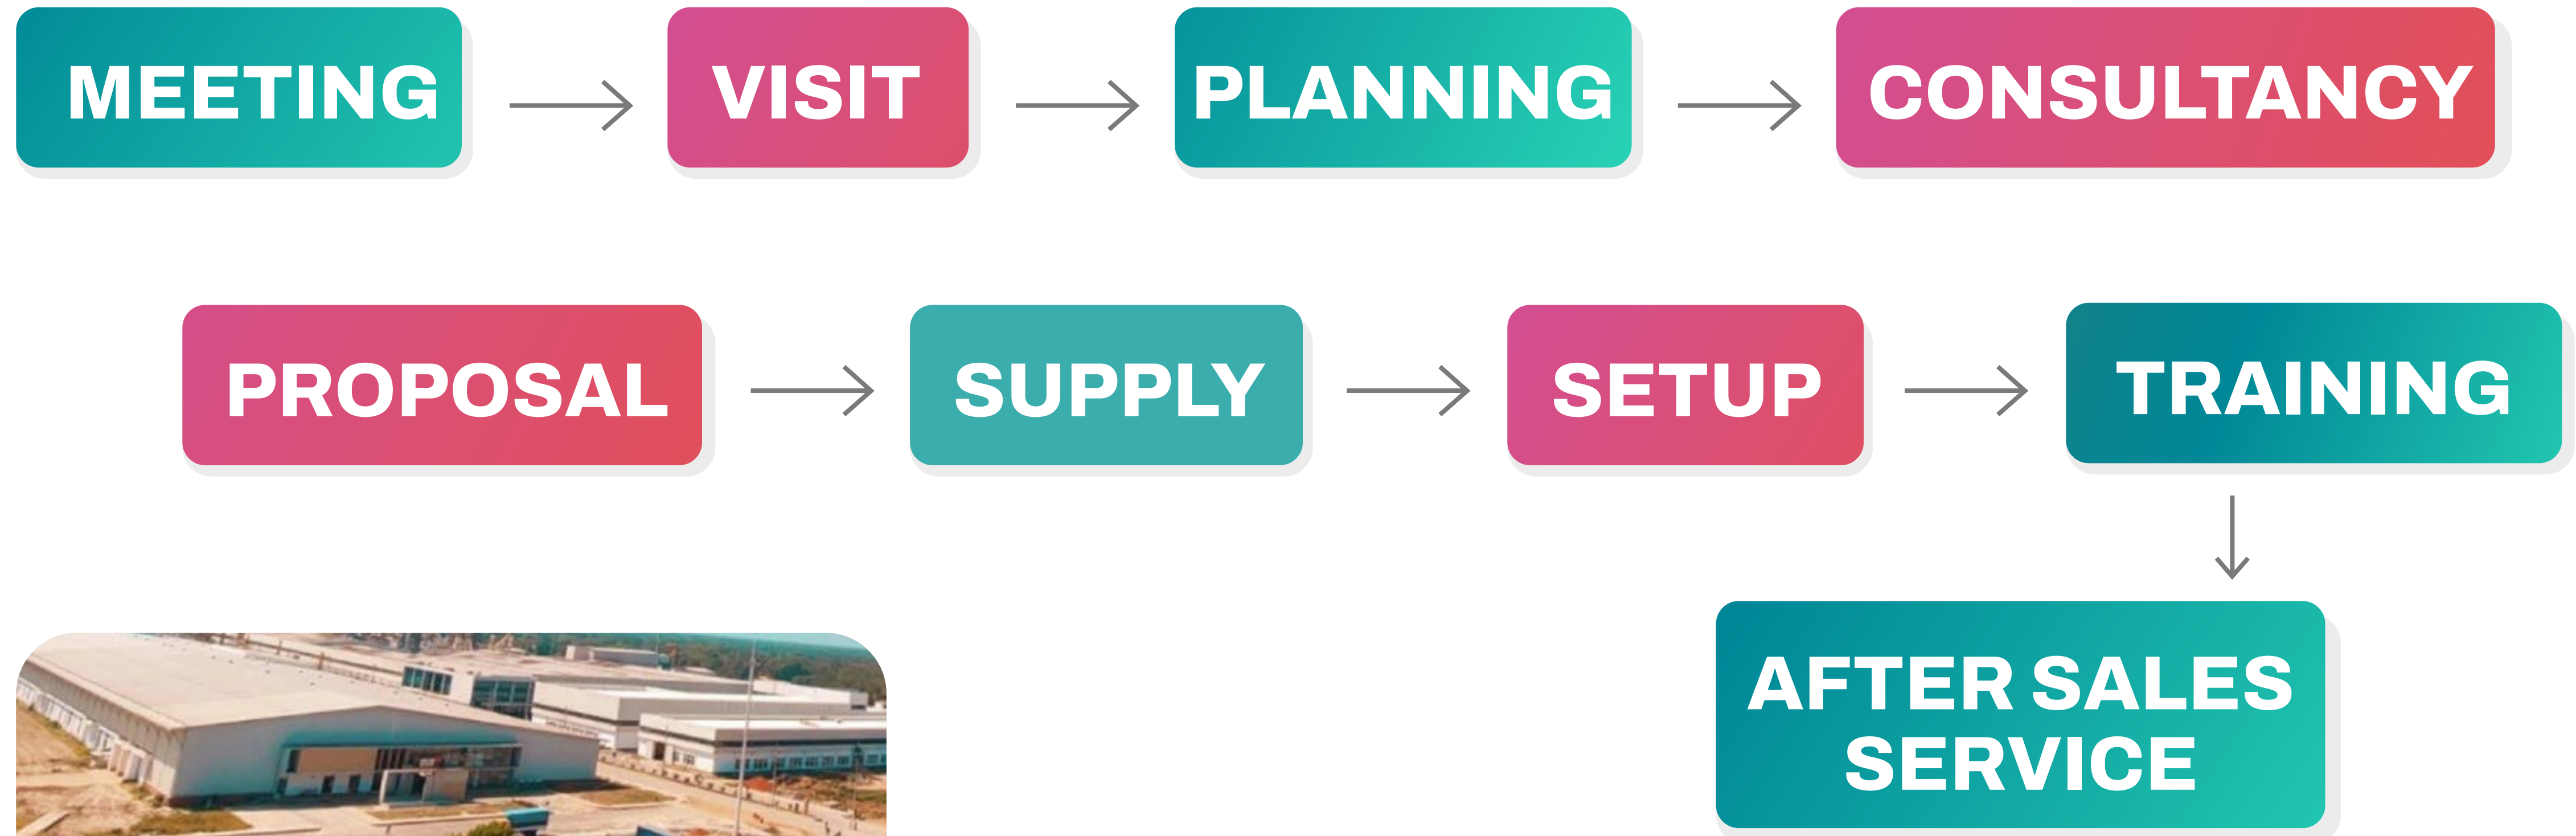

The very first concern of Confix Group founded in 2004. Confix group's journey started with Wood Tech Solution, known as WTS in short. With state-of-the-art woodworking technology and the largest service team in Bangladesh's wood working industry .

WTS is always ready to respond to all market needs for both Solid Wood and Processed Wood industries. It is through WTS, that all the major furniture brands in Bangladesh established their international standard factories.

Along with the market leaders, WTS also shapes all levels of wood working manufacturers (from single carpenters to huge production lines) through continuous support and dedicated service.

THE PROCESS

THE PROCESS

—

WTS provides the factory layout, workflow design, all the required machinery, tools, accessories and after sales services. We ensure the absolute best quality products possible within the given budget.

WTS's catalogue of machinery includes the complete range of wood working solutions (beginning from cutting the trees, sawing, all forms of wood processing, preserving to finishing and painting technology).

SOLID WOOD PROCESSING

Wood Tech Solution (WTS) offers best-in-class solid wood processing technology, providing end-to-end solutions for clients.

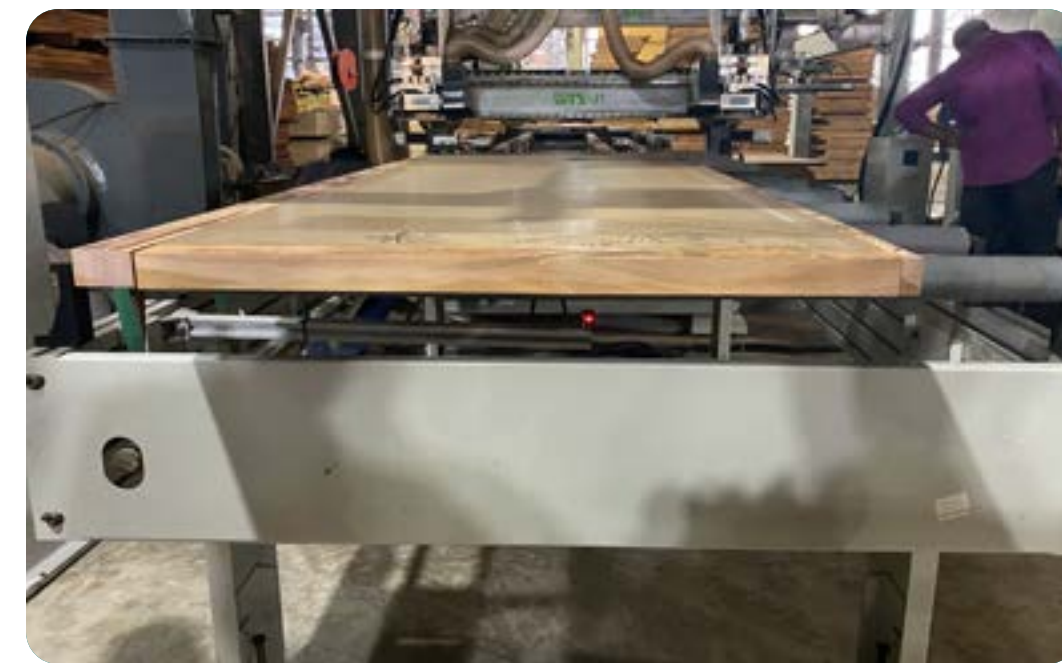

From cutting and debarking trees to log formation and precise wood processing, WTS covers every stage with expertise.

Their comprehensive range of machinery includes all forms of basic and High-Tec machines to process solid wood for making doors, furniture and all variety of solid wood products.

With a focus on precision and superior finishing, WTS delivers high-quality results, making them the trusted choice for solid wood processing in Bangladesh.

BOARD PROCESSING

Wood Tech Solution (WTS) offers the absolute best board processing technology in Bangladesh, delivering complete solutions for clients in need of high-quality board products.

From cutting and shaping raw boards to precise processing, WTS manages every step with expert precision.

Their extensive range of machinery includes all forms of Board processing machinery which are needed to create home furniture, office furniture, kitchen, cabinet, interior products, etc.

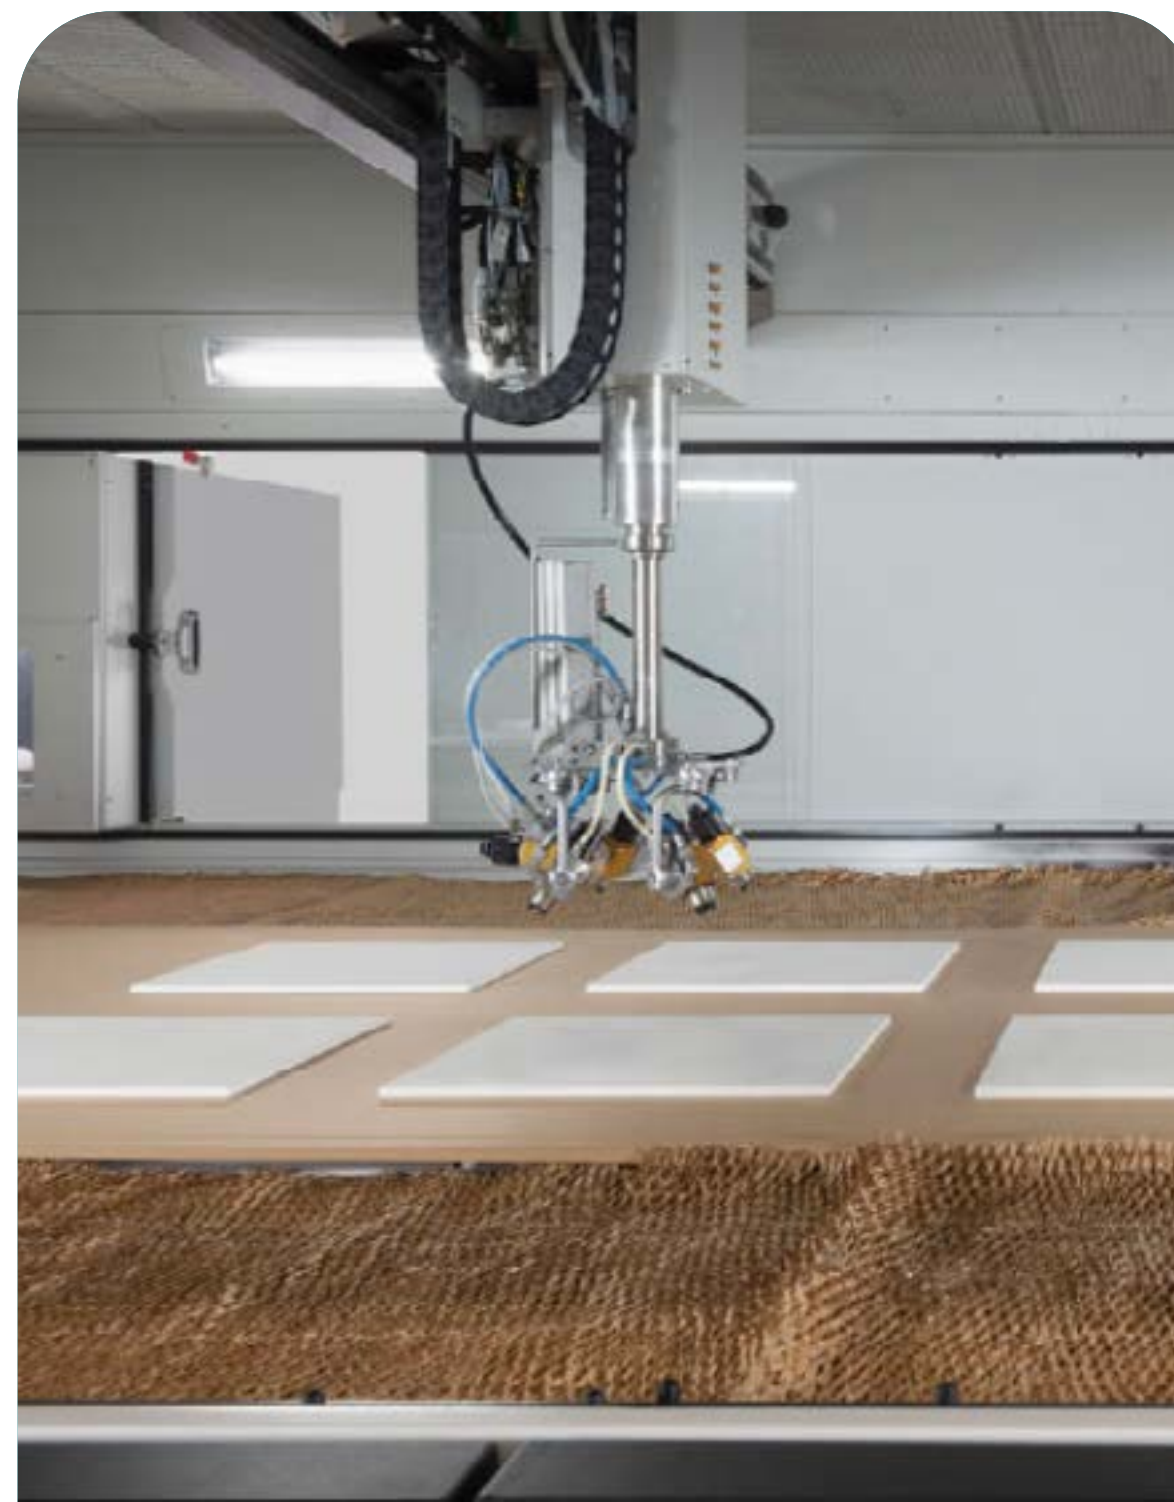

With a commitment to accuracy and superior finishing, WTS provides board products that meet the highest standards, making them a trusted leader in board processing in Bangladesh.

SEASONING & TREATMENT, FINISHING & PAINTING

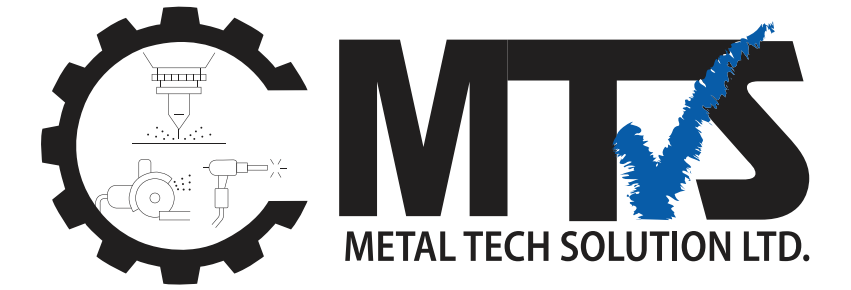

Wood Tech Solution (WTS) provides cutting edge seasoning, treatment, finishing, and painting technology to ensure superior quality wood products. Our advanced seasoning and treatment processes enhance wood durability, prevent pest infestations, and improve structural stability.

With state-of-the-art finishing and painting systems, WTS ensures smooth, flawless surfaces with long-lasting coatings that enhance both appearance and performance.

“ As the leading expert in Bangladesh, WTS sets the standard for wood preservation and finishing solutions. Whether it is seasoning and treating, or painting/coating wood, WTS is the best one stop solution for any requirements. ”

MASTERY OVER METAL

The pioneers of Bangladesh's metal working industry, Metal tech Solution, MTS in short, have revolutionized the way metal is processed. Paving the way for advanced technology and service to make its way to all sectors that deal with metal. MTS is the reference brand that clients go to when they need solutions for their metal working concerns.

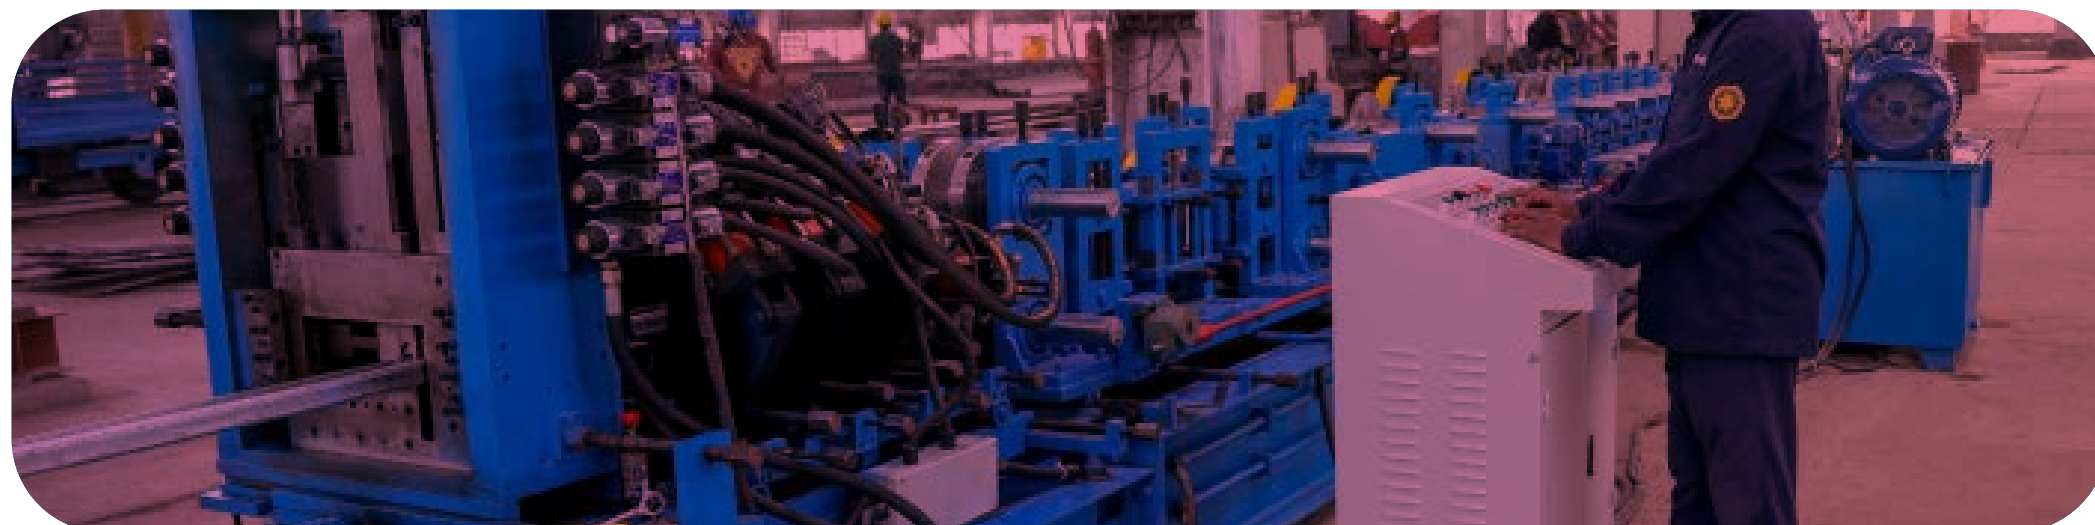

COMPLETE METAL WORKING SOLUTIONS

Metal Tech Solution follows the same meticulous approach as WTS, with a strong focus on scouting, planning, and delivering comprehensive solutions for all metalworking needs. Acknowledging the widespread gap in after-sales service across the industry. MTS has assembled the most skilled engineering team in the country, dedicated to ensuring clients remain satisfied long after their initial purchase.

Unlike many traders and companies that simply supply metalworking machinery, MTS goes beyond by addressing the specific needs of each client. This proactive approach helps prevent the common issues that arise from insufficient guidance.

As the only company in Bangladesh offering more than just machinery, MTS provides expert consultancy and fully tailored metalworking solutions, ensuring clients receive unmatched support and value.

METAL CUTTING, WELDING AND CLEANING

Metal Tech Solution (MTS) offers a comprehensive range of cutting-edge metalworking solutions designed to meet the diverse needs of modern industries. MTS is the proud partner of HIDGAR Germany, a company established in 1976 which is one of the leading laser cutting, welding and cleaning solution providers in the world.

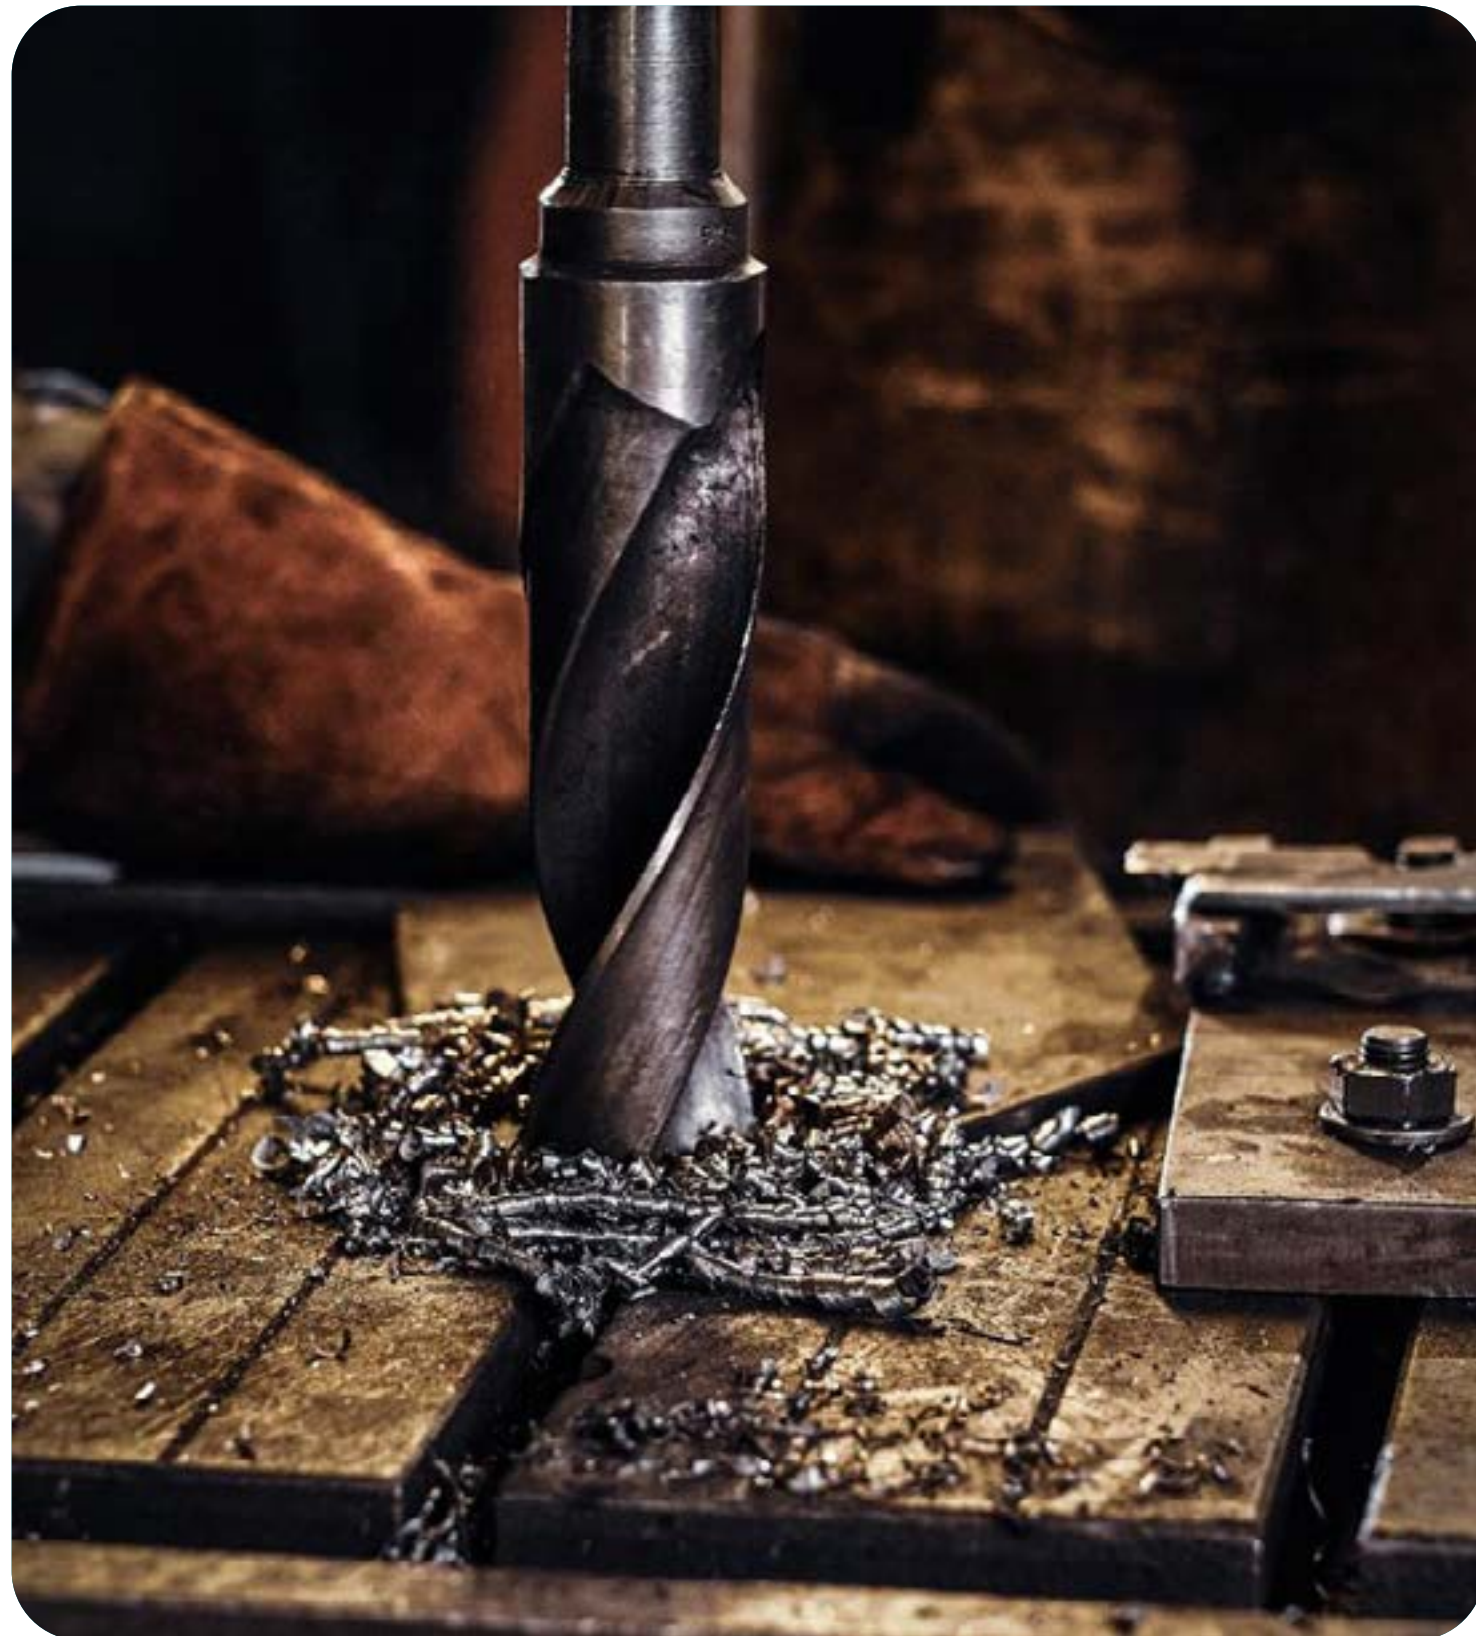

HIDGAR provides budget friendly German engineering, which allows Bangladesh's metal working firms and entrepreneurs access to European technology in affordable prices. HIDGAR's fiber laser cutting delivers incredibly clean and accurate cuts, even in thick materials, while laser welding ensures strong, clean welds with minimal thermal distortion.

To ensure the highest quality and performance, HIDGAR also offers expert cleaning equipment that remove contaminants from metal parts before further processing or assembly. Together, these technologies ensure that MTS can handle even the most complex cutting, welding and cleaning requirements.

METAL BENDING, SHEARING, MILLING & MACHINING

In addition to cutting and welding, MTS excels in other key metalworking processes, including bending, shearing, milling, and machining. The bending services precise and offer repeatable results for creating intricate shapes and designs, while shearing provides quick and accurate straight cuts on metal sheets.

CNC milling and machining services further enhance MTS's capabilities by allowing for the production of detailed parts with tight tolerances and fine finishes. These processes, combined with MTS's state-of-the-art technology, deliver unparalleled precision and versatility across a wide array of industries.

MASTERY OVER GLASS

Glass Tech Solution, the newest venture of the Confix Group, is dedicated to driving significant modernization in Bangladesh's glass working industry. While the production of glass panels has become a well-established sector in the country, the industrial processing of glass remains underdeveloped in terms of technology. GTS is already making remarkable strides in revolutionizing this industry and is poised for rapid growth, aiming to establish international standards in the market.

COMPLETE GLASS WORKING SOLUTIONS

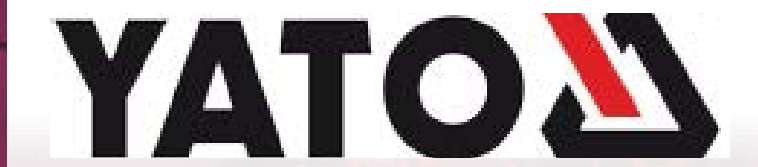

With Glass Tech Solution's advanced European-standard machinery, clients can easily process glass with exceptional precision and finish, resulting in the highest-quality products that truly enhance people's lives. Just like WTS and MTS, GTS offers reliable, comprehensive solutions to the industry.

GTS brings cutting-edge glass processing methods, including waterjet cutting, laser cutting, grinding, bending, and coating, all powered by state-of-the-art machinery. In addition to top-tier processing capabilities, GTS supports clients with flexible operations by offering tailored training and dedicated after-sales services.

YATO POWER TOOLS - MAKE YOUR LIFE EASIER

YATO

THE MOST PREMIUM TOOLS IN THE MARKET

YATO BANGLADESH, a proud partner of YATO GLOBAL, represents the pinnacle of excellence in hand tools, power tools, and accessories under Confix Group. As one of the most recognized tool brands worldwide, YATO offers an unparalleled range of products with one of the largest and most diverse catalogues in the industry. Now bringing its exceptional quality and services to Bangladesh, YATO BANGLADESH

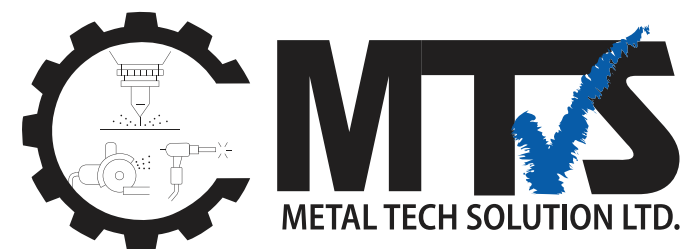

is set to revolutionize daily operations across various industries. Confix Group is proud to be the sole distributor of YATO, making sure it is poised to thrive, enhance productivity, and simplify the lives of countless people like never before.

UNPARALLELED AFTER SALES SERVICES

At Confix Group, we take pride in offering more than just cutting-edge machinery—we provide an industry-leading after-sales service experience. Each company within the Confix Group is equipped with a fully specialized engineering team, ensuring year-round technical support and maintenance.

Our commitment to excellence has made us the largest after-sales service provider in Bangladesh, setting a benchmark in the industry.

“ Unlike many machine suppliers in the market who merely deliver equipment without adequate support, Confix Group goes above and beyond. Our team of highly skilled engineers is meticulously selected, rigorously trained, and continuously updated with the latest technological advancements. Whether it’s basic mechanical equipment or highly sophisticated industrial machinery, our experts are capable of handling all technical challenges with precision and efficiency.

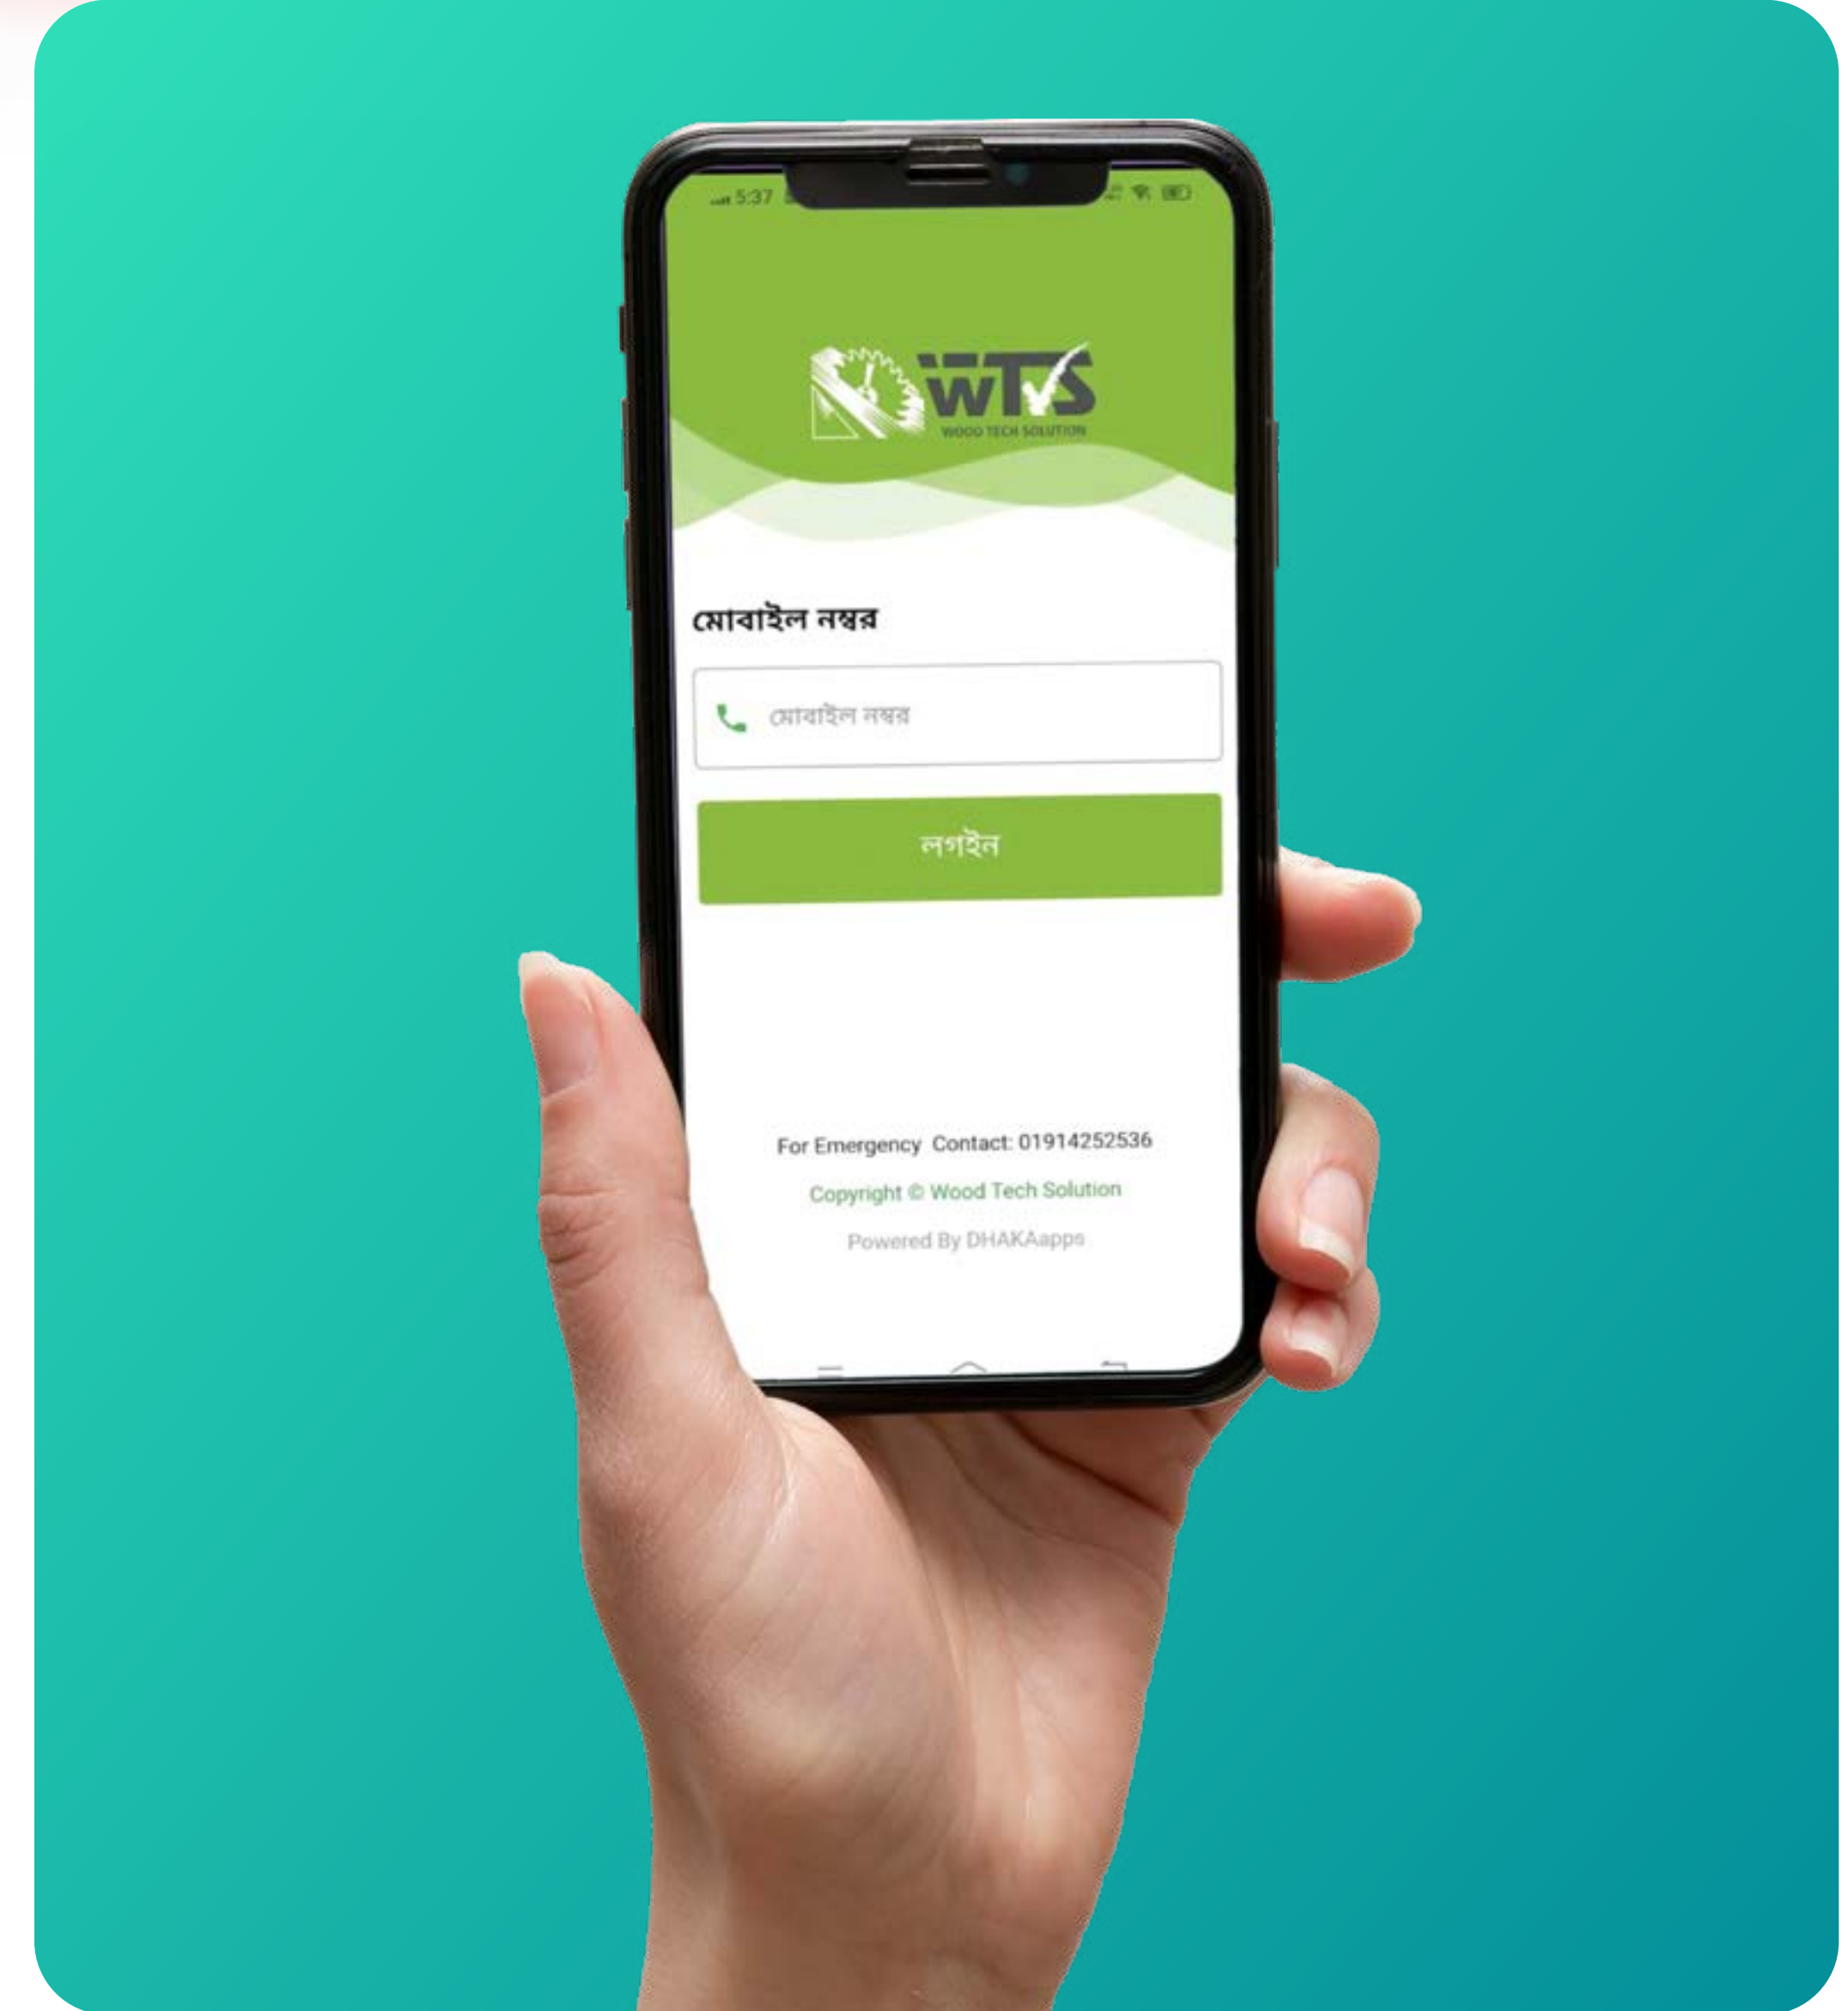

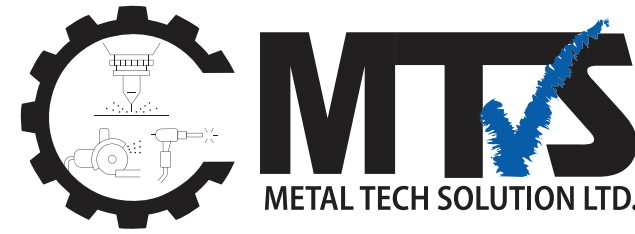

What sets us apart is our dedication to customer success. We don’t just install machines—we empower our clients with comprehensive training, in-depth knowledge, and hands-on guidance to ensure they can operate their equipment safely and efficiently. By adhering to international service standards, we help businesses minimize downtime, reduce waste, optimize production, and maximize profitability.

At Confix Group, we believe that a machine is only as good as the support behind it. That’s why we stand by our customers every step of the way, providing unmatched after-sales service that guarantees long-term reliability and success. ”

UNPARALLELED AFTER SALES SERVICES

The Only Mobile App for
After Sales Service in
Bangladesh

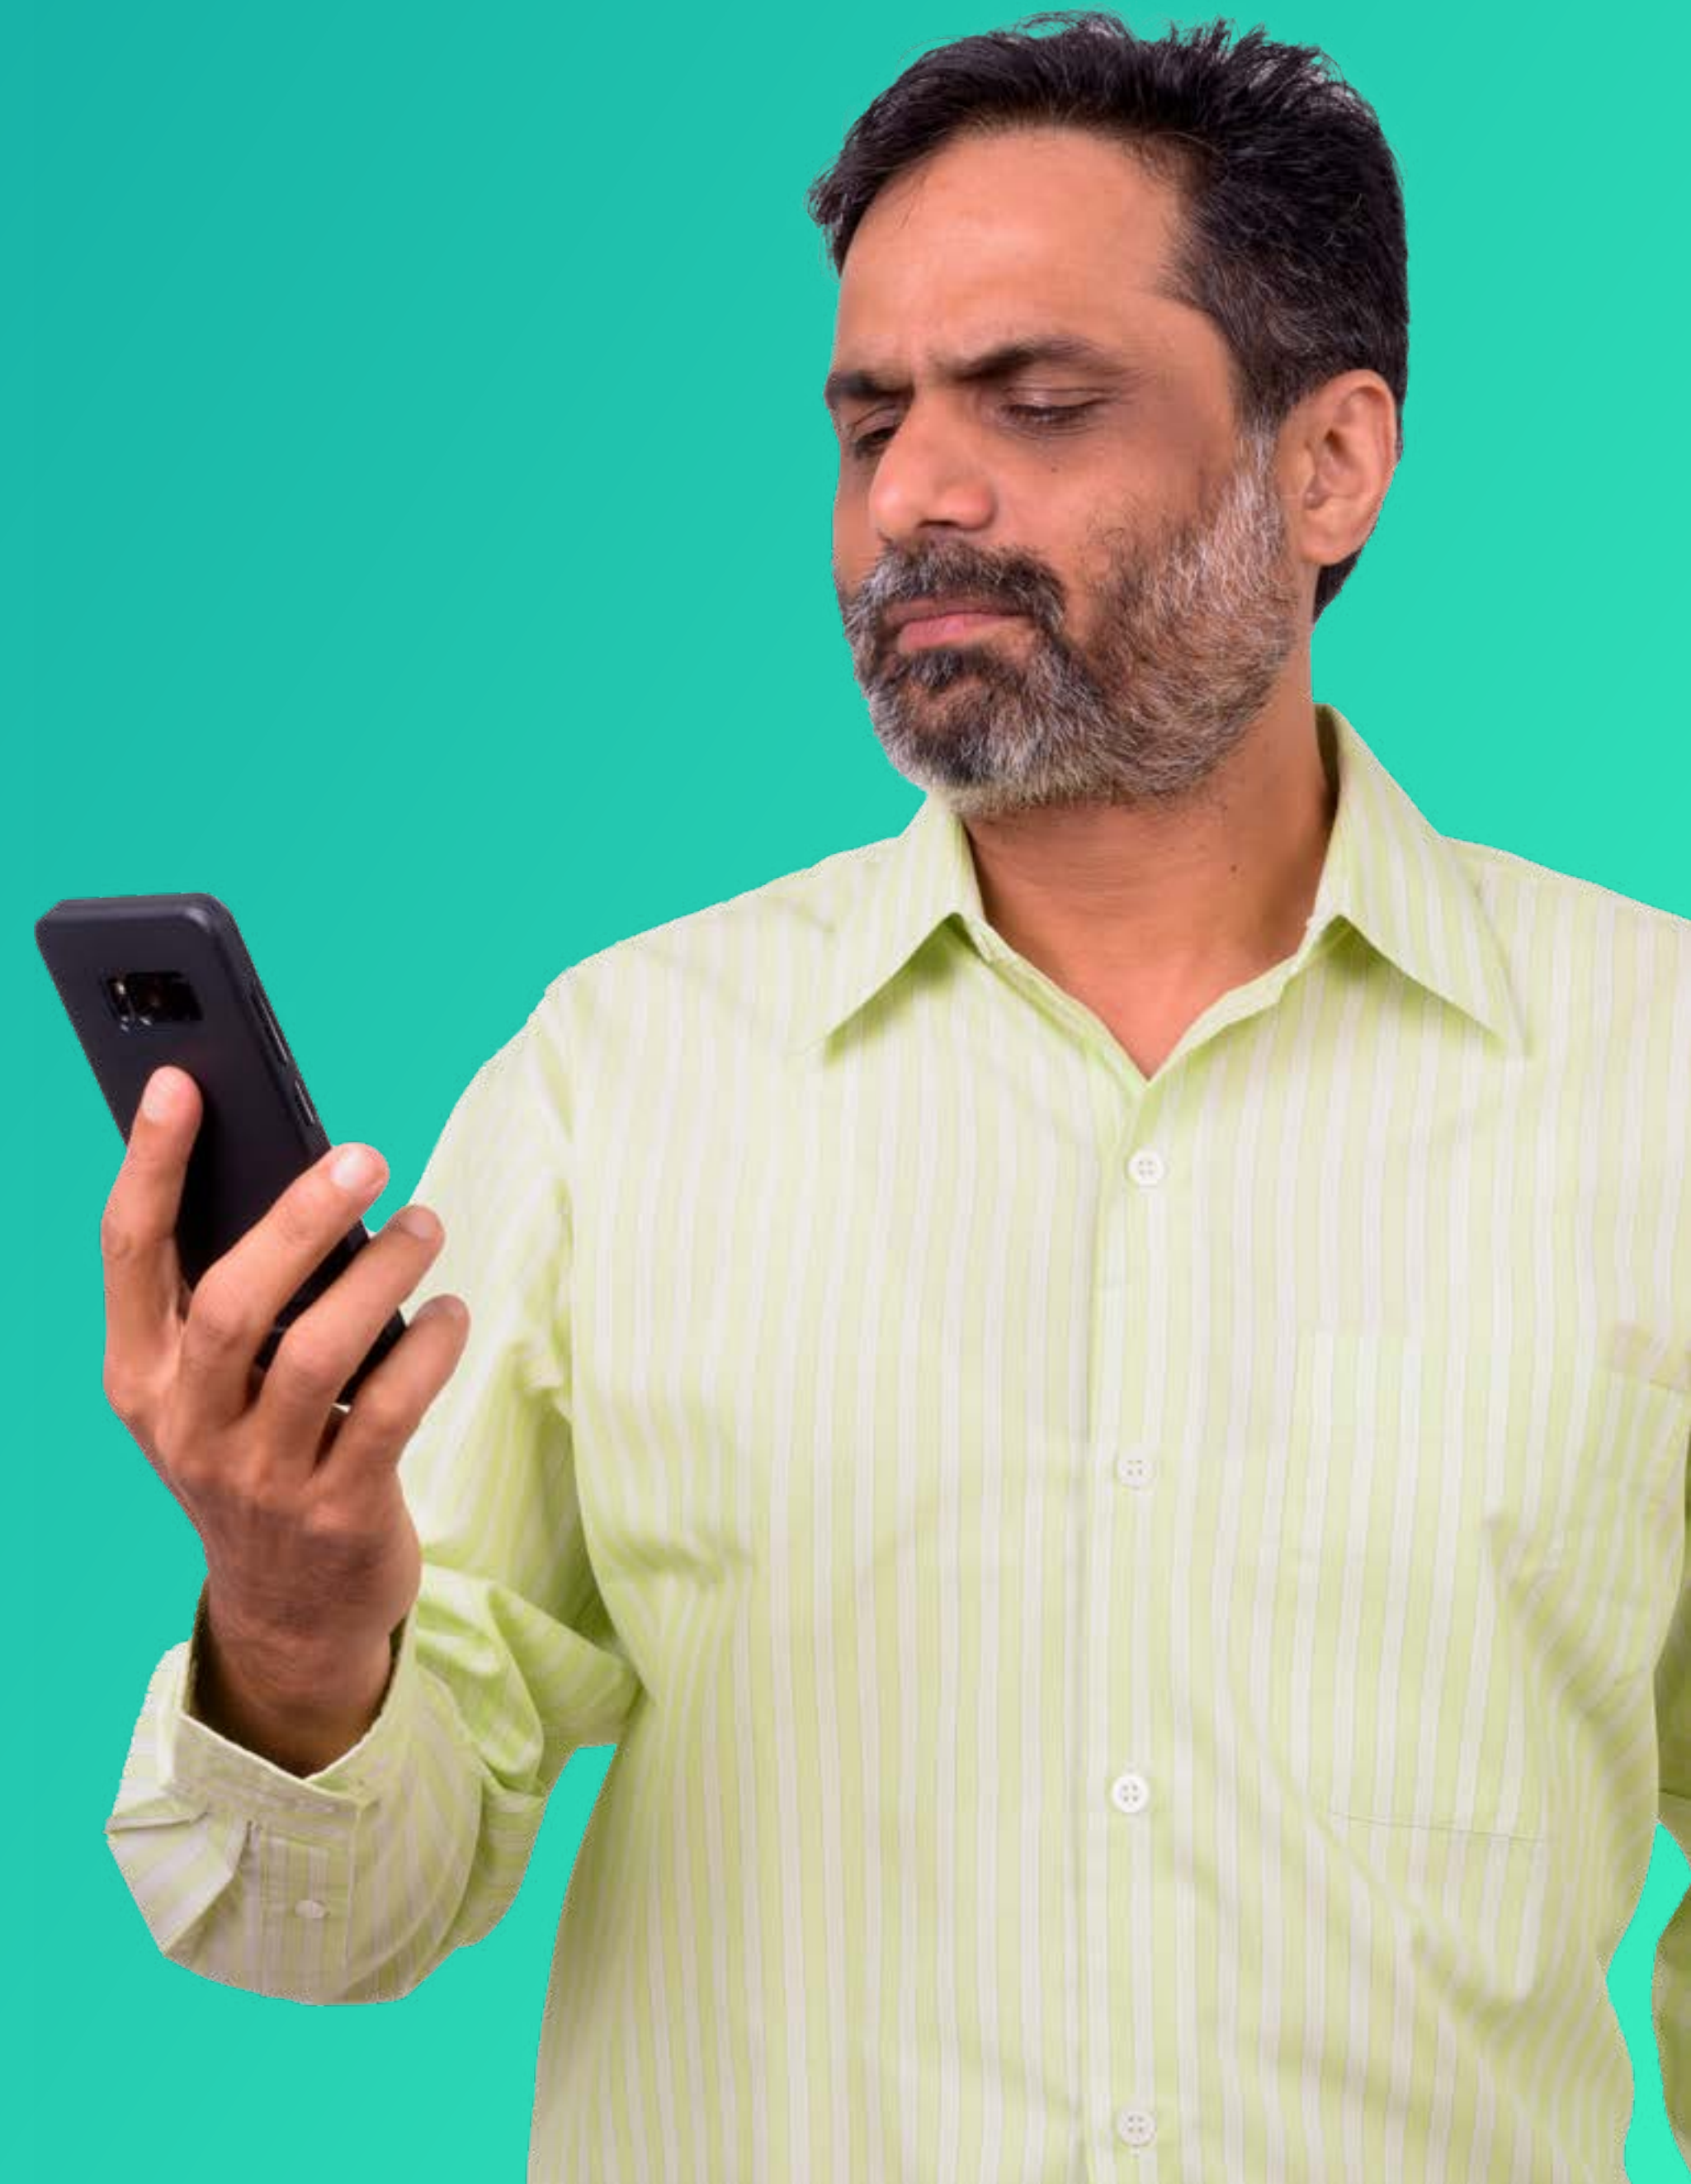

In 2017, Confix Group revolutionized the industry by launching the WTS Support App, the first and only after-sales service application of its kind. Recognizing the need to digitalize after-sales service operations for its extensive clientele, the group developed this innovative platform to streamline service requests and enhance customer support.

The WTS Support App enables clients to create and manage their accounts effortlessly, keeping track of all machinery purchases and, most importantly, requesting after-sales services with ease. Through the app, the engineering team can efficiently plan and schedule services across the country, proactively addressing customer concerns.

With features like video call support, engineers can diagnose and resolve issues remotely, reducing downtime. If necessary, the team can schedule on site visits to customer workshops or factories, ensuring hands-on assistance when required.

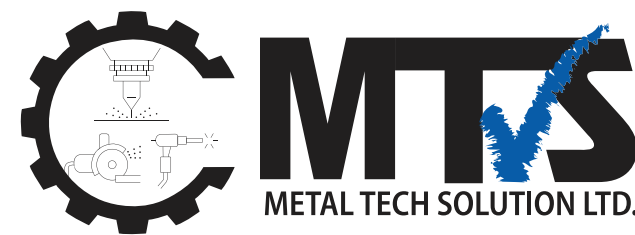

By leveraging this cutting-edge platform, Confix Group has set a new industry benchmark, delivering unparalleled service nationwide. The app has significantly enhanced operational efficiency, strengthened customer trust, and solidified the group's reputation as the "Number 1" after-sales service provider in Bangladesh.

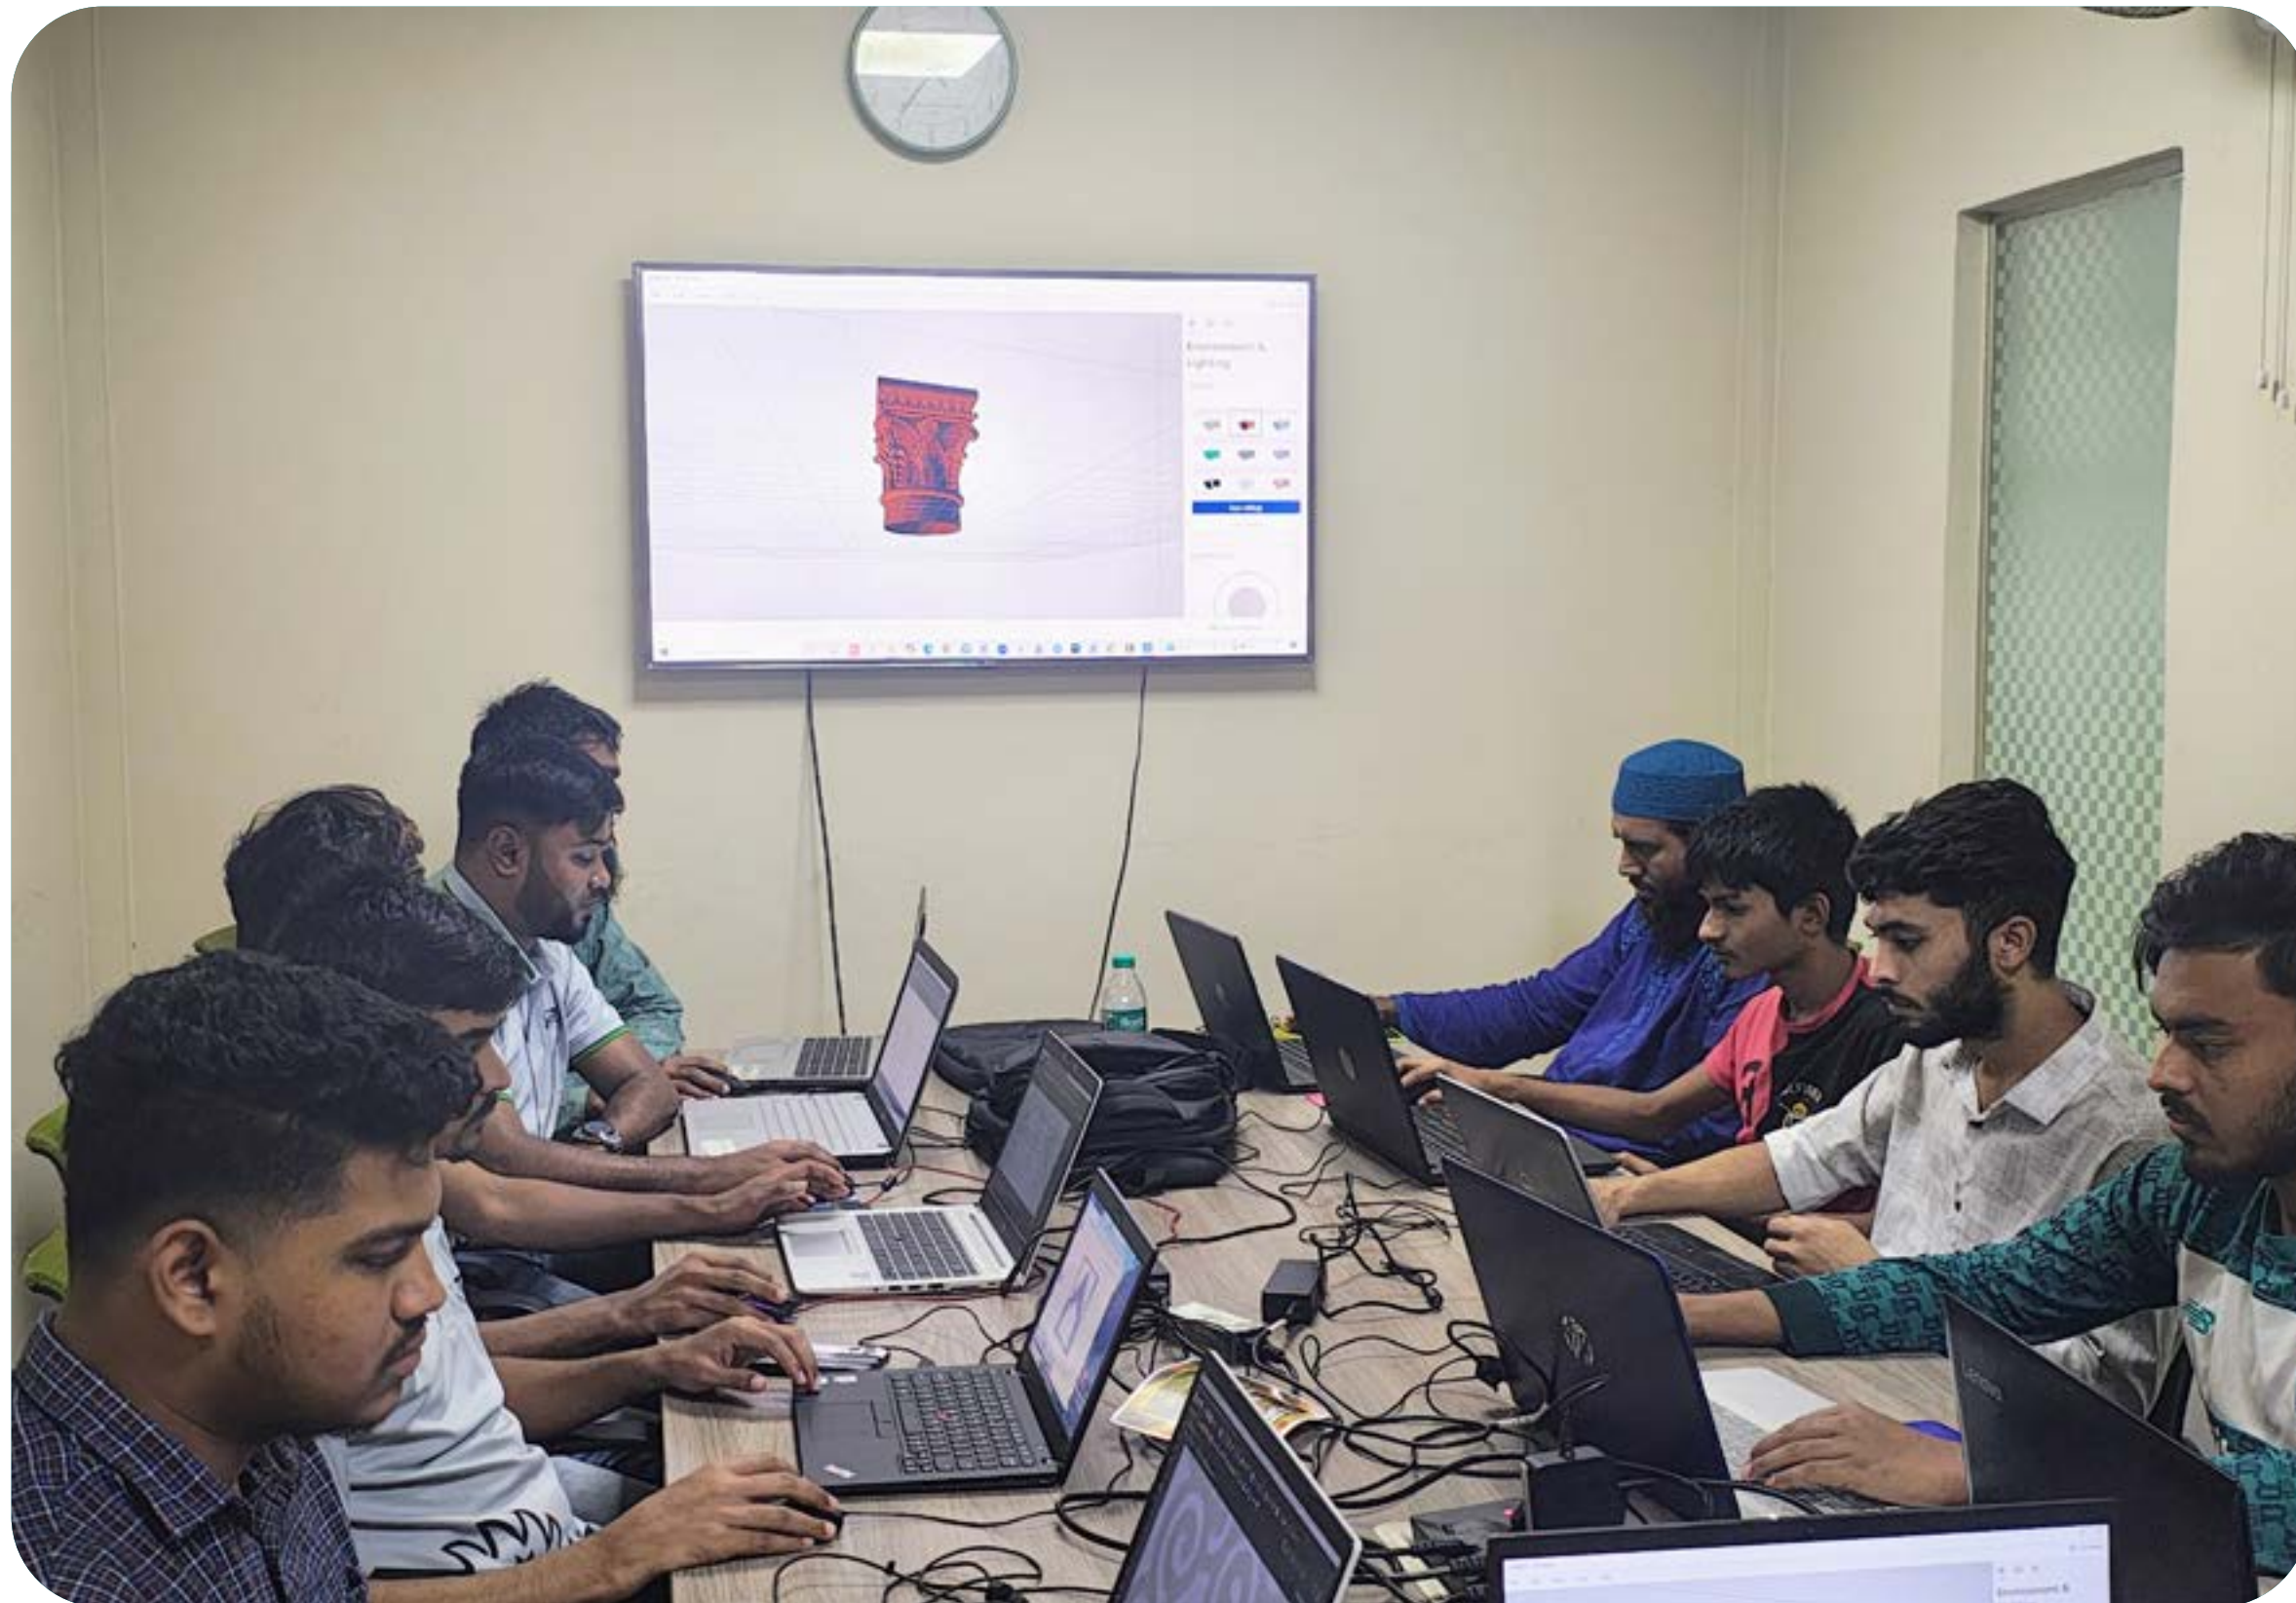

COLLABORATIONS & PARTNERSHIPS

Confix Group actively collaborates with organizations such as SM Foundation, BYLC, USAID, CARE Bangladesh, Sajida Foundation, BITAC, BUET, NSDA, National Skills Council, Bangladesh Technical Education Board and all the Polytechnic Institutes of Bangladesh to drive skill development, support SMEs, and advance industry innovations.

Through workshops, hands-on training, mentorship, and access to modern machinery, we empower young professionals, entrepreneurs, and businesses to enhance productivity and competitiveness. Our initiatives contribute to job creation, technology adoption, and sustainable industrial growth, reinforcing our commitment to building a skilled and prosperous Bangladesh.

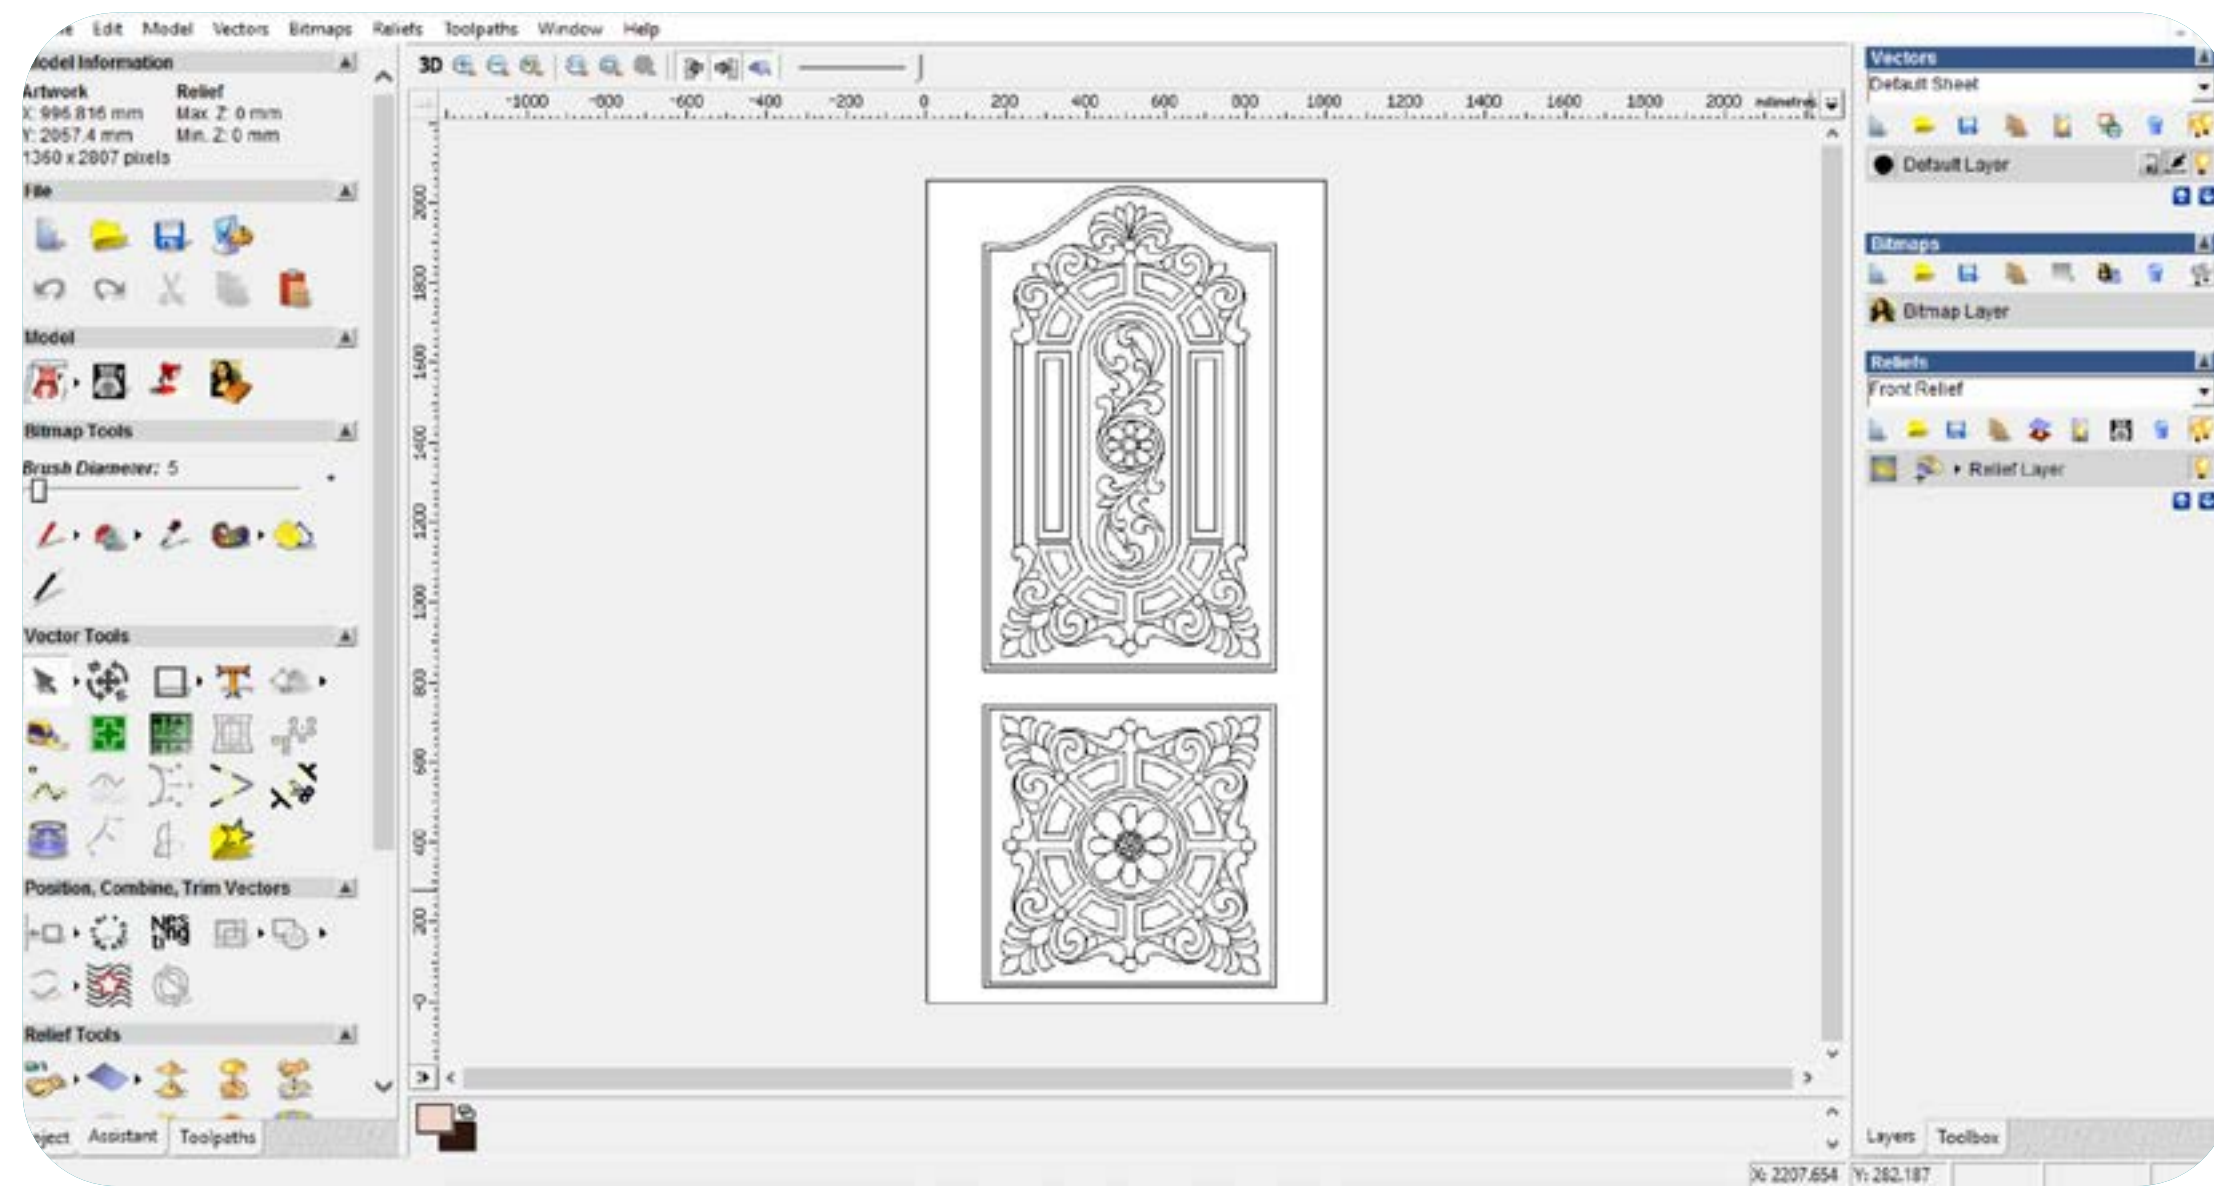

WOOD & METAL TRAINING INSTITUTE (WMTI)

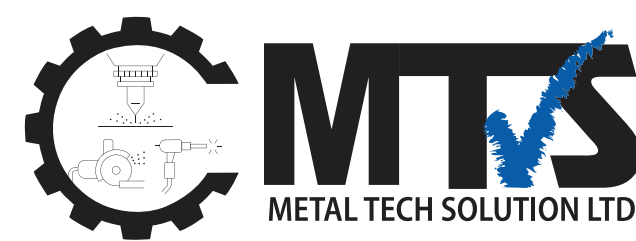

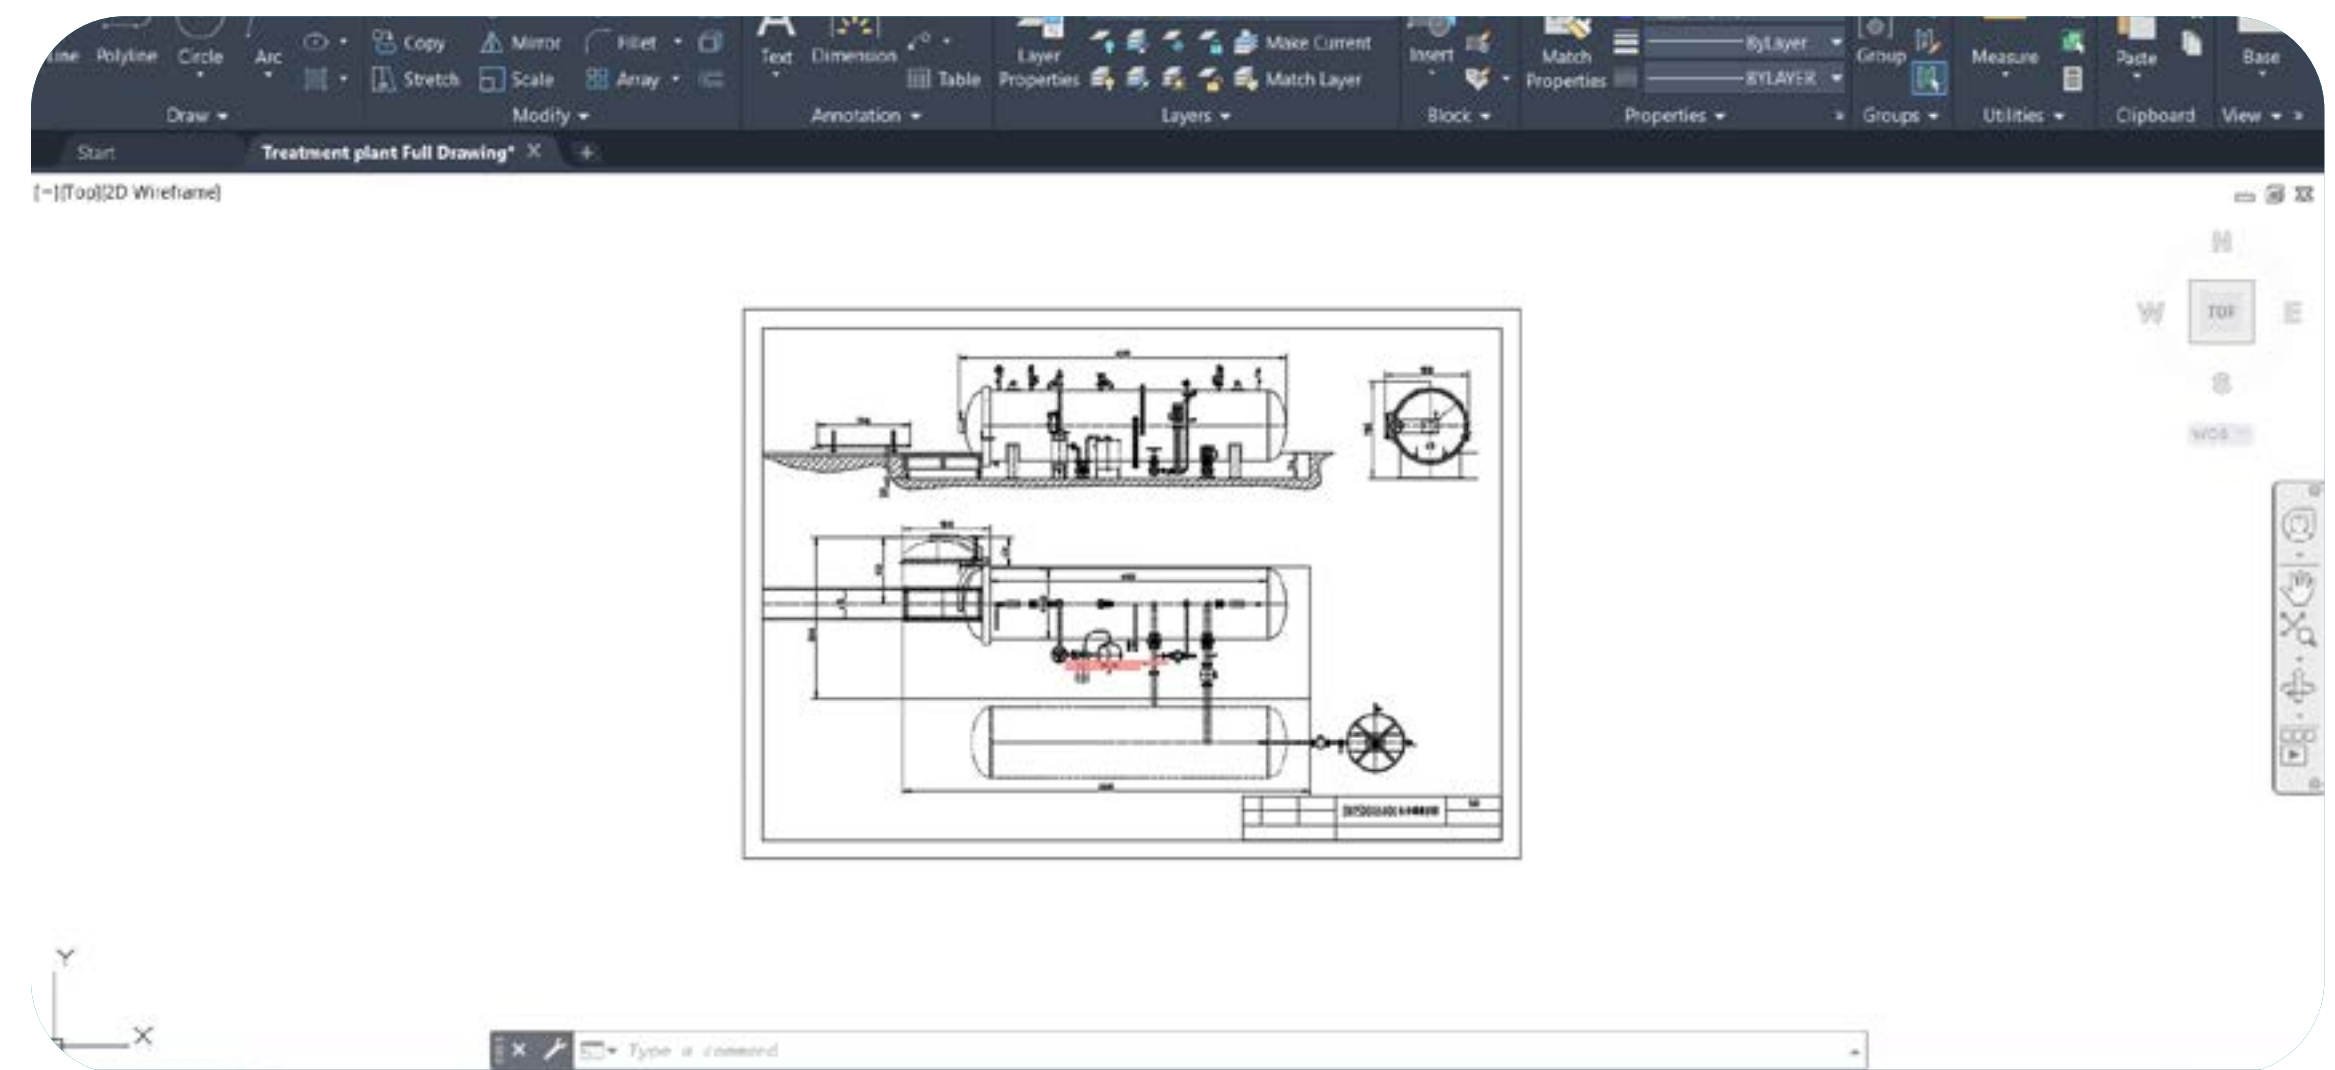

Confix Group offers the most comprehensive training programs in Bangladesh's material processing industry. In addition to its highly sought-after CNC Design training course, the group provides expert training in operating all types of wood-working and metalworking machinery. By collaborating with leading domestic and international organizations, Confix Group is committed to fostering technical skill development, driving innovation, and boosting employment opportunities.

Whether aspiring to become a CNC Designer, AutoCAD Designer, CNC Operator, or a basic or high-tech wood/metal machinery operator, Confix Group stands at the forefront of professional training. Through its programs, countless talented individuals have secured stable employment, turning their skills into successful careers.

Moreover, the group's renowned reputation and goodwill have enabled it to establish partnerships international with companies leading and universities. As a result, the most competent graduates have been granted exclusive opportunities to work abroad in some of the world's top wood and metal processing firms.

Setting a benchmark in the industry, Confix Group is the only organization in Bangladesh to offer government approved training programs, further enhancing its credibility and value in the sector.
